

Responsible Official

Payette National Forest Supervisor,
Suzanne C. Rainville.

Nature of Decision To Be Made

Based on the purpose and need for the proposed action, the Responsible Official will determine whether to proceed with the action as proposed, as modified by another alternative or not at all. If an action alternative is selected, the Responsible Official will determine what design features, mitigation measures and monitoring to require.

Scoping Process

This notice of intent initiates the scoping process, which guides the development of the environmental impact statement.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

Dated: May 26, 2010.

Jake Strohmeyer,

Acting Forest Supervisor.

DEPARTMENT OF COMMERCE**Submission for OMB Review; Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: 2010 Census Coverage

Measurement—Person Followup & Person Followup Reinterview Operations and Respondent Debriefings.

OMB Control Number: None
Form Number(s): D-1301, D-1301(PR)..

Type of Request: New collection.

Burden Hours: 16,629.

Number of Respondents: 57,776.

Average Hours per Response: Person Followup Interviews—15 min.; Respondent Debriefings—10 min..

Needs and Uses: The U.S. Census Bureau requests authorization from the Office of Management and Budget (OMB) to conduct the Census Coverage Measurement (CCM) Person Followup

(PFU) and Person Followup Reinterview (PFU RI) operations as part of the 2010 Census. Changes were made to this request since the notice was published in the **Federal Register** (Vol. 74, No. 249, 69061, December 30, 2009). Respondent debriefings of the CCM Person Interview (PI) and CCM PFU have been added. These are to be conducted as part of a CCM evaluation. Details of this evaluation were not yet available at the time of this notice or in time to include in the CCM PI OMB package.

The CCM program will provide estimates of net coverage error and components of census coverage (including omissions and erroneous enumerations) for housing units and persons in housing units (see Definition of Terms in Part B, Collections of Information Employing Statistical Methods). The data collection and matching methodologies for previous coverage measurement programs were designed only to measure net coverage error.

The 2010 CCM will be comprised of two samples selected to measure census coverage of housing units and the household population: The population sample (P sample) and the enumeration sample (E sample). The primary sampling unit is a block cluster, which consists of one or more contiguous census blocks. The P sample is a sample of housing units and persons obtained independently from the census for a sample of block clusters. The E sample is a sample of census housing units and enumerations in the same block cluster as the P sample. The PFU operation will contain approximately 57,776 sample addresses. The PFU RI Operation will be a sample of those cases with an estimate 8,667 sample addresses.

The paper PFU questionnaire will be used to collect address and dates of stay information for persons selected for followup to verify their residence on Census Day (April 1, 2010) and on the day of the CCM Person Interview for that household. PFU will also contain questions to resolve match and duplication status discrepancies between the CCM Person Interview and the Census.

We also will conduct a quality control operation called PFU Reinterview (PFU RI) on 15 percent of the PFU cases. The purpose of the operation is to confirm that the PFU enumerator conducted a PFU interview with an actual household member or a valid proxy respondent and to conduct a full PFU interview when falsification is suspected.

In addition to the CCM PFU and PFU RI operations, respondent debriefings of the CCM Person Interview (PI) and CCM

PFU will be conducted. The purpose of the respondent debriefings is to obtain a qualitative gauge of how well the PI and PFU instruments performed the tasks they were designed to accomplish, those being to capture members of the household and assign usual residence. Census Residence Rules experts will observe approximately 220 PI and PFU personal visit interviews and ask respondent debriefing questions at approximately 110 households (80 PI households and 30 PFU households). They will clarify or verify the usual residence of the persons listed and other persons who should have been counted. The experts will audiotape all observed interviews and debriefings of respondents if permission is given by the respondent. These audiotapes are for use in evaluations.

Affected Public: Individuals or households.

Frequency: One time.

Respondent's Obligation: Mandatory (participation in debriefings is voluntary).

Legal Authority: Title 13 U.S.C., Sections 141 and 193.

OMB Desk Officer: Brian Harris-Kojetin, (202) 395-7314.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dhynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Brian Harris-Kojetin, OMB Desk Officer either by fax (202-395-7245) or email (bharrisk@omb.eop.gov).

Dated: May 28, 2010.

Glenna Mickelson,

Management Analyst, Office of the Chief Information Officer.

National Oceanic and Atmospheric Administration

RIN 0648-XW63

Magnuson Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Regional Administrator, Southwest Region, NMFS, has made a preliminary determination that an application for an Exempted Fishing Permit (EFP) warrants further consideration. The application was submitted by members of the Pacific sardine fishing industry, who request an exemption from seasonal closures of the directed fishery to conduct a survey designed to estimate the population size of Pacific sardine. NMFS requests public comment on the application.

DATES: Comments must be received by July 6, 2010.

ADDRESSES: You may submit comments on this notice, identified by 0648-XW63, by any one of the following methods:

- Mail: Rodney R. McInnis, Regional Administrator, Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802.
- Fax: (562) 980-4047, Att: Joshua Lindsay.

FOR FURTHER INFORMATION CONTACT: A copy of the application can viewed at the following website http://swr.nmfs.noaa.gov/fmd/cps/Sardine_EFP_2010_Full_Application_042910-1.pdf; or by contacting Joshua Lindsay, Southwest Region, NMFS, (562) 980-4034.

SUPPLEMENTARY INFORMATION: On March 10, 2010, NMFS published a final rule implementing the harvest guideline (HG) and annual specifications for the 2010 Pacific sardine fishing season off the U.S. West Coast (75 FR 11068). As part of these management measures the Council recommended, and NMFS approved, that 5,000 metric tons (mt) of the maximum harvest guideline (HG) be initially subtracted and set aside for potential industry based research projects. Members of the Pacific sardine fishing industry, concerned about the difficulty of securing fishing vessels for research purposes during the normal fishing season, requested this separate allocation so that they could conduct research fishing activities after fishing is closed. The 5,000 mt set aside was intended to allow for potential research fishing in the second seasonal period (July 1 - September 14, 2009) and third seasonal period (September 15 - December 31, 2009), to continue if that period's directed fishery allocation is reached and directed fishing is closed.

NMFS approval and issuance of an EFP is required to conduct the fishing activities proposed by the applicants to occur when directed fishing is not
