SUPPLEMENTARY INFORMATION: The FDIC is proposing to renew this collection:
Title: Occasional Qualitative Surveys.
Estimated Number of Respondents and Burden Hours:

| FDIC document | Number of surveys | Hours per survey | Number of respondents | Burden hours |
|--------------------------------------|-------------------|------------------|-----------------------|--------------|
| Occasional Qualitative Surveys | 15 | 1 | 850 | 12,750 |
| Total | 15 | 1 | 850 | 12,750 |

General Description of Collection: The information collected in these surveys is anecdotal in nature, that is, samples are not necessarily random, the results are not necessarily representative of a larger class of potential respondents, and the goal is not to produce a statistically valid and reliable database. Rather, the surveys are expected to yield anecdotal information about the particular experiences and opinions of members of the public, primarily staff at respondent banks or bank customers. The information is used to improve the way FDIC relates to its clients, to develop agendas for regulatory or statutory change, and in some cases to simply learn how particular policies or programs are working, or are perceived in particular cases.
