

was shown to be hydraulically connected to the Columbia River and chlorination was required. Prior to installation of the Canadian-manufactured PVC pipe and completion of the proposed project, the distribution system configuration did not allow for sufficient chlorine contact time.

Without the appropriate contact time, the disinfection process could not have been completed prior to water reaching the consumers. The project originally estimated the need for 340 linear feet of large diameter 36" pipe to allow for ample and sufficient chlorine contact time to provide treatment and disinfection to the water however, after additional engineering analysis, it was noted that only 280 linear feet was needed for project specifications. EPA finds these considerations as stated by the City provide ample functional justification for their specification.

The April 28 memorandum defines "public interest" as those cases which possibly involve national implications of such a waiver. Based on additional research by EPA's consulting contractor (Cadmus), and to the best of the Region's knowledge at this time, the City attempted without success, to meet the Buy American requirements. Furthermore, the purpose of the ARRA provisions is to stimulate economic recovery by funding current infrastructure construction, not to delay projects that are already shovel ready by requiring entities, like the City, to revise their design or potentially choose a more costly and less effective project. The imposition of ARRA Buy American requirements on such projects eligible for DWSRF assistance would result in unreasonable delay and thus displace the "shovel ready" status for this project. To further delay construction is in direct conflict with the most fundamental economic purposes of ARRA; to create or retain jobs.

The Drinking Water Unit has reviewed this waiver request and has determined that the supporting documentation provided by the City is sufficient to meet the following criteria listed under section 1605(b) and in the April 28 memorandum: Applying the Buy American requirements of ARRA would be inconsistent with the public interest.

The basis for this project waiver is the authorization provided in section 1605(b)(1), due to the lack of any U.S. production of what by industry's standards is a small amount (280 linear feet) of large diameter 36" PVC pipe, in order to meet the City's design schedule and specifications. The March 31, 2009, Delegation of Authority Memorandum provided Regional Administrators with

the authority to issue exceptions to section 1605 of ARRA within the geographic boundaries of their respective regions and with respect to requests by individual grant recipients. Having reviewed all available documentation, statements, invoices, and related correspondence, EPA has established both a proper basis to specify the particular good required for this project, and that categorization of similar waiver requests from Gwinnett County, GA (granted 12/18/09) and Old Town, ME (granted 2/12/10) when the manufactured goods involved there had already been used in and incorporated into the ARRA project, that EPA has evaluated and considered the City's waiver request as of January 4, 2010 to be considered under section 1605(b)(1) authority for public interest waivers. The City is hereby granted a waiver from the Buy American requirements of section 1605(a) of Public Law 111-5 for the purchase of 280 linear feet of large diameter 36" PVC pipe. This supplementary information constitutes the detailed written justification required by section 1605(c) for waivers based on a finding under subsection (b).

Authority: Public Law 111-5, section 1605.

Dated: May 25, 2010.

Dennis J. McLerran,

Regional Administrator, EPA, Region 10.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Medicaid Program: Proposed Implementation of Section 614 of the Children's Health Insurance Program Reauthorization Act of 2009 for Adjustments to the Federal Medical Assistance Percentage for Medicaid Federal Matching Funds

AGENCY: Office of the Secretary, Department of Health and Human Services.

ACTION: Notice with comment period.

SUMMARY: For purposes of Title XIX (Medicaid) of the Social Security Act, the Federal Medical Assistance Percentage (FMAP), defined in section 1905(b) of the Social Security Act, for each state beginning with fiscal year 2006 is subject to adjustment pursuant to section 614 of the Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA), Public Law 111-3. Section 614 provides for a recalculation of the FMAP disregarding identifiable significantly disproportionate employer pension or insurance fund contributions for a state. These contributions, when counted, increase state personal income and, by operation of the statutory formula to calculate the FMAP, would decrease the FMAP for the state. This notice announces the proposed methodology that the U.S. Department of Health and Human Services will use to determine the need for, and amount of, any such recalculation of the FMAP for a state.

DATES: *Comment Date:* To be assured consideration, comment must be received at the address provided below, no later than 5 p.m. EST on July 7, 2010.

SUPPLEMENTARY INFORMATION:

A. Background

Section 1905(b) of the Social Security Act defines the Federal Medical Assistance Percentage (FMAP), which is used to determine the share of federal matching funds paid to each state for medical assistance payments under an approved Medicaid State plan under Title XIX of the Social Security Act. These FMAP rates are also used to determine federal matching fund rates for state expenditures for assistance payments under certain social service programs under Title IV of the Social Security Act and for child health assistance expenditures under the Children's Health Insurance Program under title XXI of the Social Security Act. In other **Federal Register** issuances, we have addressed changes to these FMAP rates required under the American Recovery and Reinvestment Act of 2009 (Pub. L. 111-5).

This notice addresses adjustments to the FMAP rates that are applicable only to the Medicaid program and required by Section 614 of the Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA). Section 614 specifies that certain significantly disproportionate employer pension or insurance fund contributions shall be disregarded when computing the per capita income used to calculate the FMAP. The statutory formula for calculating the FMAP is based on the ratio of the state's per capita income to the per capita income of the entire United States. Under this formula, states with higher per capita income levels could have lower FMAP rates than states with lower per capita income levels. Significantly disproportionate employer pension or insurance fund contributions increase state personal income and, by operation of the statutory formula, could result in lower FMAPs than if those contributions were disregarded. CHIPRA requires adjustments to the Fiscal Year 2006
