

are reinitiating consultation with the Applicants to take into consideration the rescheduled project dates and potential impacts to critical habitat. We will also reinitiate and complete intra-Service section 7 consultation prior to finalization of the IHA, which will include consideration of the new dates and potential impacts to critical habitat.

National Environmental Policy Act (NEPA)

The applicant provided an FEA on the project. The Service finds that this FEA meets NEPA standards for analyzing the effects of the issuance of this IHA. To obtain a copy of the FEA, contact the individual identified in the **ADDRESSES** section.

Government-to-Government Relations With Native American Tribal Governments

In accordance with the President's memorandum of April 29, 1994, "Government-to-Government Relations with Native American Tribal Governments" (59 FR 22951), Executive Order 13175, Secretarial Order 3225, and the Department of the Interior's manual at 512 DM 2, we readily acknowledge our responsibility to communicate meaningfully with federally recognized Tribes on a Government-to-Government basis. On July 24, 2008, we contacted the Native Village of Akutan to offer Government-to-Government consultation on this project. The Tribal Administrator declined the offer, stating that their Tribe fully supports the development of an airport on Akun Island.

Proposed Authorization

The Service proposes to issue an IHA for small numbers of northern sea otters harassed incidentally by the Applicants while conducting the Akutan Airport, Alaska, Airport Construction and Hovercraft Operation. The final IHA would specify the starting date and ending date (1 year later) for the authorization. Authorization for incidental take beyond the period specified in the final IHA will require a request for renewal.

The final IHA would also incorporate the mitigation, monitoring, and reporting requirements discussed in this proposal. The Applicants will be responsible for following those requirements. These authorizations do not allow the intentional taking of northern sea otters.

If the level of activity exceeds that described by the Applicants, or the level or nature of take exceeds those projected here, the Service will reevaluate its findings. The Secretary may modify,

suspend, or revoke an authorization if the findings are not accurate or the conditions described herein are not being met.

Request for Public Comments

The Service requests interested persons to submit comments and information concerning this proposed IHA. Consistent with section 101(a)(5)(D)(iii) of the MMPA, we are opening the comment period on this proposed authorization for 30 days (see **ADDRESSES**).

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: May 25, 2010.
