SUPPLEMENTARY INFORMATION: These meetings will be conducted jointly by the Nuclear Regulatory Commission (NRC) and the Federal Emergency Management Agency (FEMA) and will address Supplement 3 to NUREG-0654/FEMA-REP-1, Rev.1, Guidance for Protective Action Recommendations for General Emergencies (NUREG Supp 3). Draft NUREG Supp 3 has been proposed by these two agencies to address emergency planning and preparedness for Nuclear Power Plants. This document addresses both onsite (the plants themselves) and offsite (State, local, Tribal offsite response organizations) planning and preparedness. FEMA and the NRC are soliciting comments for the joint document through the notice of availability, titled "Announcement of Issuance for Public Comment, Availability" (75 FR 10524, published on March 8, 2010). The document is available at <http://www.regulations.gov> (Docket ID NRC-2010-0080). Please note that the public comment period on this document has been extended to August 9, 2010.

NUREG-0654/FEMA-REP-1, Rev. 1, is a joint FEMA/NRC policy document that contains the Evaluation Criteria that FEMA and the NRC use to determine compliance with the 16 Planning Standards that are located in FEMA's regulations at 44 CFR 350.5, and the NRC's regulations at 10 CFR part 50. The agencies use these Planning Standards, and associated Evaluation Criteria, to measure the adequacy of emergency preparedness plans of Nuclear Power Plant (NPP) owners and operators and the State, local, and Tribal jurisdictions in which they are sited.

NUREG Supp 3 provides additional guidance directed to NPP licensees, State, local, and Tribal jurisdictions. Elements of this draft guidance include increased offsite response organization involvement in the development of protective action strategies, consideration of staged evacuation as the initial protective action at General Emergency, increased use of shelter-in-place for certain scenarios, and guidance to improve communications with the public before and during an emergency. The substance of this joint draft guidance aligns with changes proposed in the NRC Notice of Proposed Rulemaking entitled "Enhancements to Emergency Preparedness Regulations"

(74 FR 23254, published on May 18, 2009), and Interim Staff Guidance as well as the changes proposed in FEMA's draft Radiological Emergency Preparedness Program Manual and Supplement 4 to NUREG-0654/FEMA-REP-1, Rev.1 (74 FR 23198 published on May 18, 2009).

The purpose of these public meetings is to (1) Introduce the proposed draft guidance jointly; (2) answer questions about the proposed draft guidance document and to describe the next steps in the guidance document process; (3) ensure openness during the guidance document process; (4) provide additional opportunities for public participation in the guidance document process; and, (5) build positive relations, confidence, and trust in the guidance document process.
