SUMMARY: The proposed information collection requirement described below has been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

This request is for the clearance of survey instruments designed to provide statistically accurate information on outcomes realized by clients of HUD-funded housing counseling agencies seeking assistance to either purchase a home (pre-purchase clients) or to resolve or prevent a mortgage delinquency (foreclosure mitigation clients). Fourteen-hundred and thirty counseling clients have already been recruited to voluntarily participate in the study. In granting their informed consent to participate in the study, these counseling clients agreed to be contacted by telephone 12 months

following the receipt of counseling to complete a survey about their counseling experience and their current housing situation. The purpose of this survey is to gather information needed to both document the share clients realizing different outcomes following counseling and to analyze how these outcomes vary with the characteristics of clients and the services they receive.

DATES: *Comments Due Date:* July 8, 2010.

SUPPLEMENTARY INFORMATION:

Background

Sections 101(a)(5)(A) and (D) of the MMPA, as amended (16 U.S.C. 1371 (a)(5)(A) and (D)), authorize the Secretary of the Interior to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region, provided that we make certain findings and either issue regulations or, if the taking is limited to harassment, provide a notice of a proposed authorization to the public for review and comment.

We may grant authorization to incidentally take marine mammals if we find that the taking will have a negligible impact on the species or stock(s), and will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses. As part of the authorization process, we prescribe permissible methods of taking and other means of affecting the least practicable impact on the species or stock and its habitat, and requirements pertaining to the monitoring and reporting of such takings.

The term "take," as defined by the MMPA, means to harass, hunt, capture, or kill, or to attempt to harass, hunt, capture, or kill any marine mammal. Harassment, as defined by the MMPA, means "any act of pursuit, torment, or annoyance which (i) has the potential to injure a marine mammal or marine mammal stock in the wild [the MMPA calls this Level A harassment], or (ii) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering [the MMPA calls this Level B harassment]."

The terms "small numbers," "negligible impact," and "unmitigable adverse impact" are defined in 50 CFR 18.27, the Service's regulations governing take of small numbers of marine mammals incidental to specified activities. "Small numbers" is defined as "a portion of a marine mammal species or stock whose taking would have a

negligible impact on that species or stock." "Negligible impact" is defined as "an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival." "Unmitigable adverse impact" is defined as "an impact resulting from the specified activity (1) that is likely to reduce the availability of the species to a level insufficient for a harvest to meet subsistence needs by (i) Causing the marine mammals to abandon or avoid hunting areas, (ii) directly displacing subsistence users, or (iii) placing physical barriers between the marine mammals and the subsistence hunters; and (2) that cannot be sufficiently mitigated by other measures to increase the availability of marine mammals to allow subsistence needs to be met."

Section 101(a)(5)(D) of the MMPA established an expedited process by which citizens of the United States can apply for an authorization to incidentally take small numbers of marine mammals where the take will be limited to harassment. Section 101(a)(5)(D)(iii) establishes a 45-day time limit for Service review of an application, followed by a 30-day public notice and comment period on any proposed authorizations for the incidental harassment of marine mammals. Within 45 days of the close of the comment period, we must either issue or deny issuance of the authorization. We refer to these authorizations as Incidental Harassment Authorizations (IHAs).

Previous Federal Action

On July 9, 2008, we received a joint application from the Alaska Department of Transportation and Public Facilities and the Aleutians East Borough (Applicants) for the taking by harassment of northern sea otters (*Enhydra lutris kenyoni*) incidental to the Akutan Airport, Alaska Airport Construction and Hovercraft Operation (Project). The request was published in the **Federal Register** on August 27, 2008 (73 FR 50634). On November 10, 2008, the Service issued IHAs to the Applicants authorizing Level B harassment of northern sea otters for a period of 1 year, the last date of which is April 30, 2010. Due to funding constraints, no construction activities or hovercraft operations have been conducted to date or will be conducted during the remainder of this period. Therefore no incidental take of sea otters occurred under the existing IHAs.
