In addition, this meeting included a discussion with CASAC of an EPA/OAQPS document titled *Policy Assessment for the Review of the Particulate Matter National Ambient Air Quality Standards: Preliminary Draft* (September 2009) on the nature of the policy assessment document including the overall structure, areas of focus, and level of detail. As announced February 23, 2010 in 75 FR 8062–8063, the CASAC Particulate Matter Review Panel reviewed second drafts of the health risk and visibility assessment documents on March 10–11, 2010. The Panel also held teleconferences (announced February 23, 2010 and April 16, 2010 in 75 FR 8062–8063 and 75 FR 19971) on April 8–9, 2010 and May 7, 2010, respectively, to review the first external review draft *Policy Assessment*.

Technical Contacts: Any questions concerning *Policy Assessment for the Review of Particulate Matter National Ambient Air Quality Standards—Second External Review Draft* (June 2010) should be directed to Ms. Beth Hassett-Sipple, OAR, at hassett-sipple.beth@epa.gov or (919) 541–4605.

Availability of Meeting Materials: All meeting materials (agenda, charge questions, preliminary comments and other materials) for the July 26–27, 2010 meeting will be placed on the CASAC Web site on the Web pages for those public meetings, accessible through the calendar link on the blue navigational bar at <http://www.epa.gov/casac>. The *Policy Assessment for the Review of Particulate Matter National Ambient Air Quality Standards—Second External Review Draft* (June 2010) will be available on or about June 30, 2010 at http://www.epa.gov/ttn/naaqs/standards/pm/s_pm_2007_pa.html.

Procedures for Providing Public Input: Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office.

Federal advisory committees and panels, including scientific advisory committees, provide independent advice to EPA. Members of the public

can submit comments for a federal advisory committee to consider as it develops advice for EPA. They should send their comments directly to the Designated Federal Officer for the relevant advisory committee. **Oral Statements:** In general, individuals or groups requesting an oral presentation at a public meeting will be limited to five minutes per speaker. To be placed on the public speaker list for the July 26–27, 2010 meeting, interested parties should notify Dr. Holly Stallworth, DFO, by e-mail no later than July 20, 2010. Individuals making oral statements will be limited to five minutes per speaker. **Written Statements:** Written statements for the July 26–27, 2010 meeting should be received in the SAB Staff Office by July 20, 2010, so that the information may be made available to the CASAC Panel for its consideration prior to this meeting. Written statements should be supplied to the DFO in the following formats: One hard copy with original signature and one electronic copy via e-mail (acceptable file format: Adobe Acrobat PDF, MS Word, WordPerfect, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format). Submitters are asked to provide versions of each document submitted with and without signatures, because the SAB Staff Office does not publish documents with signatures on its Web sites.

Accessibility: For information on access or services for individuals with disabilities, please contact Dr. Stallworth at the phone number or e-mail address noted above, preferably at least ten days prior to the meeting to give EPA as much time as possible to process your request.

Dated: May 28, 2010.

Anthony F. Maciorowski,
Deputy Director, EPA Science Advisory Board
Staff Office.

I. General Information

A. Does this Action Apply to Me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. Potentially affected entities may include, but are not limited to:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to

assist you and others in determining whether this action might apply to certain entities. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. **Submitting CBI.** Do not submit this information to EPA through www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. **Tips for preparing your comments.** When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- vi. Provide specific examples to illustrate your concerns and suggest alternatives.
- vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- viii. Make sure to submit your comments by the comment period deadline identified.

3. **Environmental justice.** EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help

address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticide(s) discussed in this document, compared to the general population.

II. What Action is the Agency Taking?

Under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), at the discretion of the Administrator, a Federal or State agency may be exempted from any provision of FIFRA if the Administrator determines that emergency conditions exist which require the exemption. The Wyoming Department of Agriculture has requested the Administrator to issue a specific exemption for the use of diflufenuron on alfalfa to control grasshoppers and Mormon Crickets. Information in accordance with 40 CFR part 166 was submitted as part of this request.

As part of this request, the applicant asserts that projected population levels for these damaging insect pests are higher than normal for the 2010 season. The applicant claims that registered alternatives will not provide adequate control to avert significant economic losses from occurring.

The Applicant proposes to make no more than two applications of diflufenuron, at a rate of 0.032 lbs. active ingredient (a.i.) (equivalent to 2 fl. oz. of product containing 2 lbs. a.i. per gallon). Application could be made on up to 26,000 acres of alfalfa, from the date of approval, if granted, until October 31, 2010, in the State of Wyoming. If the maximum proposed acreage were treated at the maximum rate, a total of 814 lbs. active ingredient (407 gallons formulated product) could be applied.

This notice does not constitute a decision by EPA on the application itself. The regulations governing section 18 of FIFRA require publication of a notice of receipt of an application for a specific exemption proposing a use which is supported by the IR-4 program and has been requested in 5 or more previous years, and a petition for tolerance has not yet been submitted to the Agency.

The notice provides an opportunity for public comment on the application.

The Agency will review and consider all comments received during the comment period in determining whether to issue the specific exemption

requested by the Wyoming Department of Agriculture.
