SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a draft guidance for industry and FDA staff entitled "Harmful and Potentially Harmful Constituents' in Tobacco Products as Used in Section 904(e) of the Federal Food, Drug, and Cosmetic Act." This draft guidance, when finalized, will discuss the meaning of the term "harmful and potentially harmful constituent" for use in implementing section 904(e) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 387d(e)) as amended by the Tobacco Control Act.

On June 22, 2009, the President signed the Tobacco Control Act (Public Law 111-310) into law. The Tobacco Control Act amended the act (21 U.S.C. 301 *et seq.*) by, among other things, adding a new chapter granting FDA important new authority to regulate the manufacture, marketing, and distribution of tobacco products to protect the public health generally and to reduce tobacco use by minors. Section 904(e) of the act, as added by the Tobacco Control Act, requires FDA to establish, and periodically revise as appropriate, "a list of harmful and potentially harmful constituents, including smoke constituents, to health

in each tobacco product by brand and by quantity in each brand and subbrand." The draft guidance discusses the meaning of the term "harmful and potentially harmful constituent" in the context of implementing the listing requirements of section 904(e) of the act.

II. Significance of Guidance

This draft guidance is being issued as a level 1 guidance consistent with FDA's good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the agency's current thinking on certain provisions of the Tobacco Control Act. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statutes and regulations.

III. Comments

Interested persons may submit to the Division of Dockets Management (see **ADDRESSES**) either electronic or written comments regarding this document. It is only necessary to send one set of comments. It is no longer necessary to send two copies of mailed comments. Identify comments with the docket number found in brackets in the heading of this document. Received comments may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday.

SUPPLEMENTARY INFORMATION:

I. Background

On June 22, 2009, the President signed the Tobacco Control Act (Public Law 111-31) into law. The Tobacco Control Act grants FDA authority to regulate the manufacture, marketing, and distribution of tobacco products to protect the public health generally and to reduce tobacco use by minors.

Section 911(b)(2)(A)(ii) of the Federal Food, Drug, and Cosmetic Act (the act), as amended by the Tobacco Control Act, prohibits the use of the descriptors "light," "mild," or "low," or similar descriptors on tobacco product labels, labeling, or advertising unless an FDA order is in effect for the product under section 911(g) of the act. Section 911(b)(3) of the act, as amended by the Tobacco Control Act, provides that section 911(b)(2)(A)(ii) shall take effect on June 22, 2010, and the effective date shall be with respect to the date of manufacture, provided that, in any case, beginning 30 days after such effective date, a manufacturer shall not introduce into the domestic commerce of the United States any product, irrespective of the date of manufacture, that is not in conformance with section 911(b)(2)(A)(ii). The guidance provides information in response to specific questions related to this provision. In accordance with FDA's good guidance practices regulation (§ 10.115 (21 CFR 10.115)), you may comment on this guidance at any time. The agency will consider your comments and determine whether to revise the guidance at a later date.

II. Significance of Guidance

FDA is issuing this guidance document as a level 1 guidance consistent with FDA's good guidance practices regulation (§ 10.115). This guidance document is being implemented immediately without prior public comment, under § 10.115(g)(2), because the agency has determined that prior public participation is not feasible or appropriate. This guidance document provides information on statutory requirements that take effect on June 22, 2010 (section 911(b)(3) of the act). It is important that FDA provide this information before that date.

III. Comments

Interested persons may submit to the Division of Dockets Management (see **ADDRESSES**) either electronic or written comments regarding this document. It is only necessary to send one set of comments. It is no longer necessary to send two copies of mailed comments. Identify comments with the docket number found in brackets in the heading of this document. Received comments may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday.
