

additional consideration of the prior art or raise utility, enablement, or written description issues not considered during examination of the allowable elected claims.

Separately, the Office is also considering instructing examiners that when all claims directed to an elected invention are allowable, nonelected claims must be considered for rejoinder and withdrawal of the restriction requirement. In making this decision, examiners must reevaluate both aspects of the restriction requirement, *i.e.*, whether the nonelected invention(s) as now claimed are independent or distinct from the claim(s) to the allowable elected invention and whether there would be a serious burden if the nonelected inventions were rejoined.

6. *What other areas of restriction practice can the Office improve and how?* While the Office has set forth particular restriction practice issues for which comments are specifically being requested, the Office is in this request for comments inviting comments on any area in which restriction practice could be improved.
