continued airworthiness. The limitations must identify any unique aspects of the installation.
(iii) The ICA must contain corrective maintenance procedures to functionally check battery capacity at manufacturer’s recommended inspection intervals.
(iv) The ICA must contain scheduled servicing information to replace batteries at manufacturer’s recommended replacement time.
(v) The ICA must contain maintenance and inspection requirements to visually check for a battery and/or charger degradation.
(10) Batteries in a rotating stock (spares) that have experienced degraded charge retention capability or other damage due to prolonged storage must be functionally checked at manufacturer’s recommended inspection intervals.
(11) If the Li-ion battery application contains software and/or complex hardware, in accordance with AC 20–115B and AC 20–152, they should be developed to the standards of DO–178B for software and DO–254 for complex hardware.
(12) The Li-ion battery must meet TSO C179.

These special conditions are not intended to replace § 23.1353 in the certification basis of the Hawker Beechcraft Corporation, B200 and other aircraft listed on the AML. These special conditions apply only to Li-ion batteries and battery installations. The battery requirements of § 23.1353 would remain in effect for batteries and battery installations on Hawker Beechcraft Corporation, B200 and other aircraft listed on the AML that do not use Li-ion batteries.

Issued in Kansas City, Missouri, on June 4, 2010.

Steven W. Thompson,
Acting Manager, Small Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

Proposed Amendment of Class E Airspace; Port Angeles, WA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend Class E airspace at William R. Fairchild International Airport, Port Angeles, WA. The Ediz Hook Nondirectional Radio Beacon (NDB) has been decommissioned and removed. The FAA is proposing this action for the safety and management of Instrument Flight Rules (IFR) operations at the airport.

DATES: Comments must be received on or before July 29, 2010.

FOR FURTHER INFORMATION CONTACT: Eldon Taylor, Federal Aviation Administration, Operations Support Group, Western Service Center, 1601 Lind Avenue, SW., Renton, WA 98057; telephone (425) 203–4537.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (FAA Docket No. FAA–2010–0002 and Airspace Docket No. 09–ANM–32) and be submitted in triplicate to the Docket Management System (see “ADDRESSES” section for address and phone number). You may also submit comments through the Internet at http://www.regulations.gov.

Commenters wishing the FAA to acknowledge receipt of their comments on this action must submit with those comments a self-addressed stamped postcard on which the following statement is made: “Comments to FAA Docket No. FAA–2010–0002 and Airspace Docket No. 09–ANM–32.” The postcard will be date/time stamped and returned to the commenter.

All communications received on or before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this action may be changed in light of comments received. All comments submitted will be available for examination in the public docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the Internet at http://www.regulations.gov. Recently published rulemaking documents can also be accessed through the FAA’s web page at http://www.faa.gov/airports_airtraffic/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see “ADDRESSES” section for the address and phone number) between 9 a.m. and 5 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Northwest Mountain Regional Office of the Federal Aviation Administration, Air Traffic Organization, Western Service Center, Operations Support Group, 1601 Lind Avenue, SW., Renton, WA 98057.

Persons interested in being placed on a mailing list for future NPRMs should contact the FAA’s Office of Rulemaking, (202) 267–9677, for a copy of Advisory Circular No. 11–2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by amending Class E surface airspace, and Class E airspace extending upward from 700 feet above the surface, at William R. Fairchild International Airport, Port Angeles, WA. This action is necessary because the Ediz Hook NDB was decommissioned and is no longer operational. This action would enhance the safety and management of IFR operations at the airport.

Class E airspace designations are published in paragraph 6002 and 6005, respectively, of FAA Order 7400.9T, signed August 27, 2009, and effective September 15, 2009, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in this Order.
The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation; (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle I, Section 106, describes the authority for the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at William R. Fairchild International Airport, Port Angeles, WA.

List of Subjects in 14 CFR Part 71
Airspace, incorporation by reference, Navigation (air).

The Proposed Amendment
Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

§ 71.1 [Amended]
2. The incorporation by reference in 14 CFR 71.1 of the FAA Order 7400.9T, Airspace Designations and Reporting Points, signed August 27, 2009, and effective September 15, 2009 is amended as follows:

Paragraph 6002 Class E Airspace Designated as Surface Areas.

* * * * *

ANM WA, E2 Port Angeles, WA [Amended]
Port Angeles, William R. Fairchild International, Airport, WA
(Lat. 48°07′13″ N., long. 123°29′59″ W.)
Within a 4.1-mile radius of the William R. Fairchild International Airport, and within 3 miles north and 2.2 miles south of the William R. Fairchild International Airport 07° bearing extending from the 4.1-mile radius to 11.4 miles east of the airport. This Class E airspace area is effective during specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

ANM WA, E5 Port Angeles, WA [Amended]
Port Angeles, William R. Fairchild International, Airport, WA
(Lat. 48°07′13″ N., long. 123°29′59″ W.)
Port Angeles CGAS
(Lat. 48°08′28″ N., long. 123°24′31″ W.)
That airspace extending upward from 700 feet above the surface within a 4.1-mile radius of the William R. Fairchild International Airport, and within a 4.1-mile radius of Port Angeles CGAS, and within 2.7 miles north and 4.3 miles south of the William R. Fairchild International Airport 07° bearing extending from the 4.1-mile radius to 11.4 miles east of the airport, and including the airspace within 1.8 miles either side of the William R. Fairchild International Airport 285° bearing extending from the 4.1-mile radius to 7 miles west of the airport that airspace extending upward from 1,200 feet above the surface bounded on the east by the west edge of V–495, on the south by V–4, on the west by long. 124°02′05″ W., and on the north by the United States/Canadian border.

Kevin Nolan,
Acting Manager, Operations Support Group, Western Service Center.

[Docket No. FAA–2010–0393; Airspace Docket No. 10–ANM–2]

Proposed Establishment of Class E Airspace and Amendment to Class D Airspace; Troutdale, OR

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to establish Class E airspace at Troutdale, OR, to accommodate aircraft using Non-directional Radio Beacon (NDB) Global Positioning System (GPS) Standard Instrument Approach Procedures (SIAPs) at Portland-Troutdale Airport. This action would enhance the safety and management of instrument flight rules (IFR) operations at the airport. This action also would amend the geographic coordinates of the Class D airspace area at the airport.

DATES: Comments must be received on or before July 29, 2010.
