(ii) The following requirements also apply:
(A) When transmitting phone emissions, the suppressed carrier frequency must be set as specified in 97.303(h).

(B) The control operator of a station transmitting data emissions must exercise care to limit the length of transmission so as to avoid causing harmful interference to United States Government stations.

7. Section 97.313 is amended by adding paragraph (i) to read as follows.

§ 97.313 Transmitter power standards.

(i) No station may transmit with an effective radiated power (ERP) exceeding 100 W PEP on the 60 m band. For the purpose of computing ERP, the transmitter PEP will be multiplied by the antenna gain relative to a dipole or the equivalent calculation in decibels. A half-wave dipole antenna will be presumed to have a gain of 1. Licensees using other antennas must maintain in their station records either the antenna manufacturer’s data on the antenna gain or calculations of the antenna gain.

SUPPLEMENTARY INFORMATION:

I. Background

The objective of this action is to update the existing Department of Energy Acquisition Regulation (DEAR) Subchapter D which has sections that need to be updated to conform to the Federal Acquisition Regulation (FAR). None of these changes are substantive or of a nature to cause any significant expense for DOE or its contractors. Changes are proposed to DEAR parts 919, 922, 923, 925, 926, and 952. A new part 924 is added to the DEAR. There are no DEAR parts 920 or 921. DEAR parts 919 and 926 will have another proposed rule to cover additional changes.

II. Section-by-Section Analysis

DOE proposes to amend the DEAR as follows:

1. Section 919.201 is amended by removing “DOE” in the first sentence of paragraph (c) and adding in its place “Department of Energy (DOE).”

2. A new section 919.502 is added and the title of section 919.502–2 is revised to “Total small business set-asides” to conform to the FAR.

3. Section 919.503 is amended by revising the heading to “Setting aside a class of acquisitions for small business” and by removing “SBA” and adding in its place “Small Business Administration (SBA)” in the first sentence.

4. Section 919.7 is amended by revising the title heading to read “The Small Business Subcontracting Program” to conform to the FAR.

5. Sections 919.7007, 919.7009, 919.7010, and 919.7011 are amended by revising the punctuation in the introductory text to remove the “.” and adding in its place “—”.

6. Subpart 922.6 is removed and reserved. This subpart implemented detailed instructions on protests of eligibility determinations (FAR 22.608) that were deleted from the FAR on December 20, 1996, 61 FR 67410.

7. Subpart 923.4 is removed in its entirety, including section 923.405, and reserved. The FAR has the current procedures, therefore a DOE supplement is unnecessary.

8. Subpart 923.5 is amended by adding a new section 923.500 Scope of subpart. This section clarifies that for contracts performed at DOE sites, in lieu of FAR Subpart 23.5, contracting activities shall use 923.570, Workplace Substance Abuse Programs at DOE Sites. Subpart 923.500, paragraph (b) at 923.570–1 is not needed.

9. Section 923.570–1 is amended by renumbering paragraph (a) and removing paragraph (b) in its entirety. By adding the new section 923.500, paragraph (b) at 923.570–1 is not needed.

10. Section 923.570–3 is amended by correcting the clause reference in paragraph (a) to 970.5223–4, Workplace Substance Abuse Programs at DOE Sites.

11. Subpart 923.7 is removed in its entirety, including section 923.703, and reserved. DOE Directive 430.2B implements the Executive Order 13149 on environmental issues.

12. Section 923.7003 is amended by adding a new paragraph (h) to add a prescription on when to use the existing clauses at 952.223–75, Preservation of Individual Occupational Radiation Exposure Records, in contracts containing 952.223–71, Integration of Environment, Safety, and Health into Work Planning and Execution, or 952.223–72, Radiation Protection and Nuclear Criticality.

13. Part 924 is a new part being added titled Part 924—Protection of Privacy and Freedom of Information. This new part provides the cross reference to DOE’s regulations at 10 CFR part 1008, which implement the procedures prescribed at FAR 24.103.

14. Section 925.103(b)(2)(ii) is added to prescribe the DOE procedures for proposed additions to the list of nonavailable items at FAR 25.104 list.

15. Section 925.202 is renamed “Exceptions” to conform with the FAR.

16. Section 925.202(b) is redesignated “925.202(a)(2)” and “FAR 25.202(a)(3)” in the first sentence is changed to read “48 CFR 25.202(a)(2), if the cost of the materials is not expected to exceed $100,000” to conform with the FAR and make the paragraph more concise.

17. Subpart 925.9 is redesignated to read “925.10” and the title is amended to read “Additional Foreign Acquisition Regulations” to conform to the FAR.

18. Section 925.901 is redesignated to read “925.1001 Waiver of right to examination of records.”

19. Section 925.901(c) is redesignated to read “925.1001(b) Determination and findings.” Additionally, the first sentence is revised to read “A determination and finding required at 48 CFR 25.1001(b) shall be forwarded to either the Director, Office of Contract Management, Office of Procurement and Assistance Management, or for the National Nuclear Security Administration (NNSA), to the Director, Office of Acquisition and Supply Management, for coordination of the Secretary’s approval.”

20. Section 926.7001 is amended by removing “Department of Energy” and adding in its place “Department of Energy (DOE)” in the first sentence in paragraph (a), changing the punctuation in paragraph (c) and revising paragraph (e) to read “48 CFR part 15.6 and subpart 15.6” to conform with the FAR.

21. Sections 926.7005, 926.7006, and 926.7102 are amended by revising the punctuation.

22. Clauses 952.223–76 and 952.223–77 are amended to update the references to DOE Orders and Manuals.

23. Clauses 952.226–70 and 952.226–72 are amended by revising the title of the subcontracting plan to reflect the correct name, Small Business Subcontracting Plan.

25. Throughout, sections were amended as follows: Removing “FAR” or “DEAR” and adding “48 CFR”; removing “(FAR)” or “DEAR”, or “48 CFR”, revising the punctuation; and capitalizing Offeror, Contractor, Contractor’s and Contracting Officer.

III. Procedural Requirements

A. Review Under Executive Order 12866

Today’s regulatory action has been determined not to be a “significant regulatory action” under Executive Order 12866, “Regulatory Planning and Review,” (58 FR 51735, October 4, 1993). Accordingly, this rule is not subject to review under that Executive Order by the Office of Information and Regulatory Affairs (OIRA) of the Office of Management and Budget (OMB).

B. Review Under Executive Order 12988

With respect to the review of existing regulations and the promulgation of new regulations, section 3(a) of Executive Order 12988, “Civil Justice Reform,” 61 FR 4729 (February 7, 1996),
imposes on Executive agencies the
general duty to adhere to the following
requirements: (1) Eliminate drafting
errors and ambiguity; (2) write
regulations to minimize litigation; and
(3) provide a clear legal standard for
affected conduct rather than a general
standard and promote simplification
and burden reduction. With regard to
the review required by section 3(a),
section 3(b) of Executive Order 12988
specifically requires that Executive
agencies make every reasonable effort
to ensure that the regulation: (1) Clearly
specifies the preemptive effect, if any;
(2) clearly specifies any effect on
existing Federal law or regulation; (3)
provides a clear legal standard for
affected conduct while promoting
simplification and burden reduction; (4)
specifies the retroactive effect, if any; (5)
adequately defines key terms; and (6)
addresses other important issues
affecting clarity and general
draftsmanship under any guidelines
issued by the United States Attorney
General. Section 3(c) of Executive Order
12988 requires Executive agencies to
review regulations in light of applicable
standards in section 3(a) and section
3(b) to determine whether they are met
or, alternatively, if it is unreasonable to
meet one or more of them. DOE has
completed the required review and
determined that, to the extent permitted
by law, this rule meets the relevant
standards of Executive Order 12988.

C. Review Under the Regulatory
Flexibility Act

The Regulatory Flexibility Act (5
U.S.C. 601 et seq.) requires that an
agency prepare an initial regulatory
flexibility analysis for any regulation for
which a general notice or proposed
rulemaking is required, unless the
agency certifies that the rule, if
promulgated, will not have a significant
economic impact on a substantial
number of small entities (5 U.S.C.
605(b)). This rule updates references in
the DEAR that apply to public contracts
and does not impose any additional
requirements on small businesses.
Today’s proposed rule does not alter
any substantive rights or obligations.
Consequently, today’s proposed rule
will not have a significant cost or
administrative impact on contractors,
including small entities. On the basis of
the foregoing, DOE certifies that this
proposed rule would not have a
significant economic impact on a
substantial number of small entities.
Accordingly, DOE has not prepared a
regulatory flexibility analysis for this
rule. DOE’s certification and
supporting statement of factual basis
will be provided to the Chief Counsel
for Advocacy of the Small Business
Administration pursuant to 5 U.S.C.
605(b).

D. Review Under the Paperwork
Reduction Act

This proposed rule does not impose a
collection of information requirement
subject to the Paperwork Reduction Act,
44 U.S.C. 3501 et seq. Existing burdens
associated with the collection of certain
contractor data under the DEAR have
been cleared under OMB control
number 1910–4100.

E. Review Under the National
Environmental Policy Act

DOE has concluded that promulgation
of this proposed rule falls into a class of
actions which would not individually or
cumulatively have significant impact on
the human environment, as determined
by DOE’s regulations (10 CFR part 1021,
subpart D) implementing the National
Environmental Policy Act (NEPA) of
1969 (42 U.S.C. 4321 et seq.).
Specifically, this proposed rule is
categorically excluded from NEPA
review because the amendments to the
DEAR are strictly procedural
categorical exclusion A6). Therefore,
this proposed rule does not require an
environmental impact statement or
environmental assessment pursuant to
NEPA.

F. Review Under Executive Order 13132

Executive Order 13132, 64 FR 43255
(August 4, 1999), imposes certain
requirements on agencies formulating
and implementing policies or
regulations that preempt State law or
that have federalism implications.
Agencies are required to examine the
constitutional and statutory authority
supporting any action that would limit
the policymaking discretion of the
States and carefully assess the necessity
for such actions. The Executive Order
requires agencies to have an
accountability process to ensure
meaningful and timely input by state
and local officials in the development of
regulatory policies that have federalism
implications. On March 14, 2000, DOE
published a statement of policy
describing the intergovernmental
consultation process it will follow in the
development of such regulations (65 FR
13735). DOE has examined the proposed
rule and has determined that it does not
preempt State law and does not have a
substantial direct effect on the States,
on the relationship between the national
government and the States, or on the
distribution of power and responsibilities among the various
levels of government. No further action
is required by Executive Order 13132.

G. Review Under the Unfunded
Mandates Reform Act of 1995

The Unfunded Mandates Reform Act
of 1995 (Pub. L. 104–4) generally
requires a Federal agency to perform a
written assessment of costs and benefits
of any rule imposing a Federal mandate
with costs to State, local or tribal
governments, or to the private sector, of
$100 million or more. This rulemaking
proposes changes that do not alter any
substantive rights or obligations. This
proposed rule does not impose any
mandates.

H. Review Under the Treasury and
General Government Appropriations
Act, 1999

Section 654 of the Treasury and
General Government Appropriations
Act, 1999 (Pub. L. 105–277) requires
Federal agencies to issue a Family
Policymaking Assessment for any
rulemaking or policy that may affect
family well-being. This rulemaking will
have no impact on the autonomy or
integrity of the family as an institution.
Accordingly, DOE has concluded that it
is not necessary to prepare a Family
Policymaking Assessment.

I. Review Under Executive Order 13211

Executive Order 13211, Actions
Concerning Regulations That
Significantly Affect Energy Supply,
Distribution, or Use, 66 FR 28355 (May
22, 2001), requires Federal agencies to
prepare and submit to Office of
Information and Regulatory Affairs of
the Office of Management and Budget,
A Statement of Energy Effects for any
proposed significant energy action. A
“significant energy action” is defined as
any action by an agency that
promulgates or is expected to lead to
promulgation of a final rule, and that:
(1) Is a significant regulatory action
under Executive Order 12866, or any
successor order; (2) is likely to have a
significant adverse effect on the supply,
distribution, or use of energy, or (3) is
designated by the Administrator of
OIRA as a significant energy action. For
any proposed significant energy action,
the agency must give a detailed
statement of any adverse effects on
energy supply, distribution, or use
should the proposal be implemented,
and of reasonable alternatives to the
action and their expected benefits on
energy supply, distribution, and use.
Today’s proposed rule is not a
significant energy action. Accordingly,
DOE has not prepared a Statement of
Energy Effects.
