

levels of government, as specified in the Order. Thus, Executive Order 13132 does not apply to this proposed rule. Nor does it have "tribal implications" as specified in Executive Order 13175, entitled *Consultation and Coordination with Indian Tribal Governments* (65 FR 22951, November 9, 2000). EPA is not aware of any tribal governments which are pesticide registrants. Thus, Executive Order 13175 does not apply to this action.

Since this action is not economically significant under Executive Order 12866, it is not subject to Executive Order 13045, entitled *Protection of Children from Environmental Health Risks and Safety Risks* (62 FR 19885, April 23, 1997), and Executive Order 13211, entitled *Actions Concerning Regulations that Significantly Affect Energy Supply, Distribution, or Use* (66 FR 28355, May 22, 2001). In addition, EPA interprets Executive Order 13045 as applying only to those regulatory actions that concern health or safety risks, which is not the case in this proposed rule.

This action does not involve technical standards that would require the consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272).

This action does not have an adverse impact on the environmental and health conditions in low-income and minority communities. Therefore, this action does not involve special consideration of environmental justice related issues as specified in Executive Order 12898, entitled *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations* (59 FR 7629, February 16, 1994).

SUPPLEMENTARY INFORMATION: In the "Rules and Regulations" section of this **Federal Register**, the EPA is correcting the currently codified coordinates for Site F at 40 CFR 228.15(n)(3) with the coordinates EPA inadvertently, through a typographical error, named 40 CFR 228.15(n)(4) at 71 FR 27396 (May 11, 2006). The EPA is also restoring the coordinates for Site H at 40 CFR

228.15(n)(4) which were overwritten through the EPA's typographical error. The EPA did not make a proposal prior to the direct final rule because we believe these actions are not controversial and do not expect comments that oppose them. We have explained the reasons for this action in the preamble to the direct final rule. Unless we get written comments which oppose this action during the comment period, the direct final rule will become effective on the date established in the preamble to the direct final rule, and we will not take further action on this proposal. If we get comments that oppose this action, we will withdraw the direct final rule and it will not take effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment. If you want to comment on this action, you must do so at this time. For additional information, please see the direct final rule published in the "Rules and Regulations" section of this **Federal Register**.

Authority: This action is issued under the authority of Section 102 of the Marine Protection, Research, and Sanctuaries Act, 33 U.S.C. 1401, 1411, 1412.
