48 training plans will be submitted to the Coal Mine Safety and Health District Manager for the area in which the mine is located. The proposed training will include the following elements: (a) Training in mining methods and operating procedures that will protect the trailing cables against damage; (b) training in the proper procedures for examining the trailing cables to ensure the cables are in a safe operating condition; (c) training in hazards of the trailing cables; (d) training in how to verify the circuit interrupting device(s) protecting the trailing cable(s) are properly set and maintained. The petitioner further states that the procedures of 30 CFR 48.3 for approval of proposed revisions to already approved training plans will apply. The petitioner asserts that the proposed alternative method will at all times guarantee no less than the same measure of protection to all miners than is provided by the existing standard.

Dated: June 11, 2010.

Patricia W. Silvey,
Director, Office of Standards, Regulations and Variances.

III. Data

Title: The KEYS Creativity and Innovation Survey.

OMB Number: 2700–XXXX.

Type of Review: Regular.

Affected Public: Individuals and households.

Estimated Number of Respondents: 1000.

Estimated Time per Response: 30 minutes.

Estimated Total Annual Burden Hours: 500.

Estimated Total Annual Cost: $0.

IV. Requests for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA’s estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Brenda J. Maxwell,
NASA PRA Clearance Officer.
