

Conclusion: The above represents a short summary of the Audit Program. The Texas Flexible Permit Audit Agreement is available in the public docket for this notice at <http://www.regulations.gov>, and represents the full requirements of the program.

EPA is proposing the Audit Program to ensure that Texas flexible permit holders have a path forward to secure compliance with the requirements of the CAA. As EPA has stated that Texas flexible permits are not independently Federally-enforceable permits, industry representatives have expressed concern regarding the legal ramifications of operating facilities and making facility changes at facilities that do not have independently Federally-enforceable permits. Representatives of citizens living in areas near facilities regulated under flexible permits are concerned that in some instances flexible permits allow facilities to emit more harmful pollution than would be allowed under Federal law. We believe the Audit Program has the potential to result in beneficial reductions in the levels of air pollutants being emitted by flexible permit holders as well as providing industry a regulatory framework for continuing operations until independently Federally-enforceable permitting authorizations can be obtained.

SUPPLEMENTARY INFORMATION:

Overview of This Information Collection

Collection Title: Informational requirements under Title II of the Older Workers Benefit Protection Act of 1990 (OWBPA), 29 CFR 1625.22.

OMB Number: 3046–0042.

Type of Respondent: Business, State or local governments, not for profit institutions.

Description of Affected Public: Any employer with 20 or more employees that seeks waiver agreements in connection with exit incentive or other employment termination program.

Number of Responses: 13,700.

Reporting Hours: 41,000.

Abstract: The EEOC enforces the Age Discrimination in Employment Act (ADEA) which prohibits discrimination against employees and applicants for employment who are age 40 or older. The OWBPA, enacted in 1990, amended the ADEA to require employers to disclose certain information to employees (but not to EEOC) in writing when they ask employees to waive their rights under the ADEA in connection with an exit incentive program or other employment termination program. The regulation at 29 CFR 1625.22 reiterates those disclosure requirements. The EEOC seeks an extension without change for the third-party disclosure requirements contained in this regulation.

Request for Comments: Pursuant to the Paperwork Reduction Act of 1995, and OMB regulation 5 CFR 1320.8(d)(1), the Commission solicits public comment to enable it to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the Commission's functions, including whether the information will have practical utility; (2) Evaluate the accuracy of the Commission's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
