Please make your requests or comments as specific as possible. Please confine your comments to issues for which we seek comments in this notice, and explain the basis for your comments. Include sufficient information with your comments to allow us to authenticate any scientific or commercial data you include.

The comments and recommendations that will be most useful and likely to influence agency decisions are: (1) Those supported by quantitative information or studies; and (2) Those that include citations to, and analyses of, the applicable laws and regulations. AGENCY: Employment and Training Administration (ETA), Labor.

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that required data can be provided in the desired format, reporting burden (time and

financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the addressee section of this notice or by accessing: <http://www.doleta.gov/OMB/OMBControlNumber.cfm>.

DATES: Written comments must be submitted to the office listed in the addressee section below on or before August 17, 2010.

SUPPLEMENTARY INFORMATION:

I. Background

The collection of actual Unemployment Insurance (UI) administrative cost data from states' accounting records and projected expenditures for upcoming years is accomplished through the RJM data collection instrument. The data collected consists of the actual, most recently completed fiscal year's program expenditures and hours broken out by functional activity and two years of projected expenditures. The actual cost data informs ETA's administrative funding allocation model so that state UI program administration funds are allocated as equitably as possible among states.

II. Desired Focus of Comments

Currently, the Department of Labor is soliciting comments concerning the proposed extension of the RJM data collection. Comments are requested to:

- * Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- * Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- * Enhance the quality, utility, and clarity of the information to be collected; and
