Nature and Extent of Confidentiality:

There is no need for confidentiality with this collection of information.

Needs and Uses: On January 29, 2010, the Commission released the Order, Digital Audio Broadcasting Systems and Their Impact on the Terrestrial Radio Broadcast Service (“Order”), DA 10–208, MM Docket 99–325. The Order will allow:

(1) Eligible authorized FM stations to commence operation of FM digital facilities with operating power up to –14 dB upon notice to the Commission on either Form 335 (the licensee of a super-powered FM station must file an informal request for any increase in the station’s FM Digital ERP).

(2) Licensees to submit an application to the Media Bureau, in the form of an informal request, for any increase in FM Digital ERP beyond 6 dB.

(3) Licensees submitting such a request must use a simplified method set forth in the Order to determine the proponent station’s maximum permissible FM Digital ERP.

(4) In situations where the simplified method is not applicable due to unusual terrain or other environmental or technical considerations or when it produces anomalous FM Digital ERP results, the Bureau will accept applications for FM Digital ERP in excess of –14 dB on a case-by-case basis when accompanied by a detailed showing containing a complete explanation of the prediction methodology used as well as data, maps and sample calculations.

(5) Finally, the Order implements interference mitigation and remediation procedures to resolve promptly allegations of digital interference to an authorized FM analog facility resulting from an FM Digital ERP power increase undertaken pursuant to the procedures adopted in the Order. Pursuant to these procedures, the affected analog FM station may file an interference complaint with the Bureau. In order to be considered by the Bureau, the complaint must contain at least six reports of ongoing (rather than transitory) objectionable interference. For each report of interference, the affected FM licensee must submit a map

showing the location of the reported interference and a detailed description of the nature and extent of the interference being experienced at that location. Interference reports at locations outside a station’s protected analog contour will not be considered. The complaint must also contain a complete description of the tests and equipment used to identify the alleged interference and the scope of the unsuccessful efforts to resolve the interference.

The following rule sections contain information collection requirements that have been approved by OMB and do not require any additional OMB approval because they did not change since last approved by OMB:

47 CFR 73.404(b) states in situations where interference to other stations is anticipated or actually occurs, AM licensees may, upon notification to the Commission, reduce the power of the primary Digital Audio Broadcasting (DAB) sidebands by up to 6 dB. Any greater reduction of sideband power requires prior authority from the Commission via the filing of a request for special temporary authority or an informal letter request for modification of license.

47 CFR 73.404(e) states licensees (commercial and noncommercial AM and FM radio stations) must provide notification to the Commission in Washington, DC, within 10 days of commencing in-band, on channel (IBOC) digital operation. The notification must include the following information:

(1) Call sign and facility identification number of the station;

(2) Date on which IBOC operation commenced;

(3) Certification that the IBOC DAB facilities conform to permissible hybrid specifications;

(4) Name and telephone number of a technical representative the Commission can call in the event of interference;

(5) FM digital effective radiated power used and certification that the FM analog effective radiated power remains as authorized;

(6) Transmitter power output; if separate analog and digital transmitters are used, the power output for each transmitter;

(7) If applicable, any reduction in an AM station’s primary digital carriers;

(8) If applicable, the geographic coordinates, elevation data, and license file number of the auxiliary antenna employed by an FM station as a separate digital antenna;

(9) If applicable, for FM systems employing interleaved antenna bays, a

certification that adequate filtering and/or isolation equipment has been installed to prevent spurious emissions in excess of the limits specified in Section 73.317;

(10) A certification that the operation will not cause human exposure to levels of radio frequency radiation in excess of the limits specified in Section 1.1310 of the Commission’s rules and is therefore categorically excluded from environmental processing pursuant to Section 1306(b). Any station that cannot certify compliance must submit an environmental assessment (“EA”) pursuant to Section 1.1311 and may not commence IBOC operation until such EA is ruled upon by the Commission.

BILLING CODE 6712–01–S

FEDERAL HOUSING FINANCE AGENCY

[No. 2010–N–07]

Privacy Act of 1974; System of Records

AGENCY: Federal Housing Finance Agency.

ACTION: Notice of the establishment of a new system of records.

SUMMARY: The Federal Housing Finance Agency (FHFA) is revising the proposed system of records notice that was published in the **Federal Register** May 10, 2010, at 75 FR 25856. The system of records is “Compensation Information Provided by the Regulated Entities” (FHFA–4), which will contain compensation-related information on entities regulated by FHFA.

DATES: This system of records will become effective on June 21, 2010.

FOR FURTHER INFORMATION CONTACT: John Major, Privacy Act Officer, john.major@fhfa.gov, 202–408–2849; or David A. Lee, Senior Agency Official for Privacy, david.lee@fhfa.gov, 202–408–2514 (not toll-free numbers), Federal Housing Finance Agency, 1700 G Street NW., Fourth Floor, Washington, DC 20552. The telephone number for the Telecommunications Device for the Deaf is 800–877–8339.

SUPPLEMENTARY INFORMATION:

This notice informs the public of FHFA’s system of records called “Compensation Information Provided by the Regulated Entities” (FHFA–4),

which will contain compensation-related information on entities regulated by FHFA, namely, the Federal Home Loan Banks, the Federal Home Loan Mortgage Corporation, and the Federal National Mortgage Association. This system of records notice will replace the proposed system of records notice published in the **Federal Register** on May 10, 2010, at 75 FR 25856. The information in the system of records is needed for FHFA staff members to make and support determinations relating to compensation consistent with the safety and soundness responsibilities of FHFA.

FHFA issued a proposed system of records notice in the **Federal Register** on May 10, 2010, at 75 FR 25856. FHFA received one public comment. The commenter requested that FHFA define the term "executive" as the term "executive officer" will be defined in FHFA's forthcoming final rule on executive compensation. FHFA has determined that a definition of the term is not necessary in this system of records notice. In addition, FHFA has deleted the reference to "employees" in the category of individuals covered by the system.

This notice satisfies the Privacy Act requirement that an agency publish a system of records notice in the **Federal Register** when there is an addition to the agency's system of records. It has been recognized by Congress that application of all requirements of the Privacy Act to certain categories of records may have an undesirable and often unacceptable effect upon agencies in the conduct of necessary public business. Consequently, Congress established general exemptions and specific exemptions that could be used to exempt records from provisions of the Privacy Act. Congress also required that exempting records from provisions of the Privacy Act would require the head of an agency to publish a determination to exempt a record from the Privacy Act as a rule in accordance with the Administrative Procedures Act. The Director of FHFA has determined that records and information in this new system of records is not exempt from requirements of the Privacy Act.

As required by the Privacy Act, 5 U.S.C. 552a(r), and pursuant to paragraph 4c of Appendix I to OMB Circular No. A-130, "Federal Agency Responsibilities for Maintaining Records About Individuals," dated February 8, 1996 (February 20, 1996; 61 FR 6427, 35), FHFA has submitted a report describing the new system of records covered by this notice, to the Committee on Government Operations of the House of Representatives, the Committee on Governmental Affairs of

the Senate, and the Office of Management and Budget.

The system of records is set forth in its entirety below.
