

Management and Budget (OMB) control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

*Abstract:* This ICR was developed specifically for aerospace manufacturing and rework facilities and has been tailored to the processes at aerospace facilities. Respondents may use an electronic submission approach that will be less burdensome for both the facilities that must respond and for EPA personnel who must compile the responses. Respondents are asked to complete simple forms from available information and no request is made to create or develop emission estimates from information in the literature.

Information is requested from approximately 1,000 aerospace manufacturing and rework facilities on general facility information, coatings and spray booth information, other process information (e.g., storage tanks, composite processing, etc.), emission control devices used at the facilities and their basic design and operating features, quantity of air emissions, pollution prevention programs at each facility, and information regarding startup and shutdown events. This information is necessary for EPA to adequately characterize residual risk at these facilities, to characterize emissions and control measures for operations not currently regulated, and to develop standards for new and existing aerospace facilities under section 112 of the Clean Air Act (CAA), if appropriate. The information will be collected from the electronic completion of simple forms, which will be compiled to develop a computer data base.

The EPA is charged under section 112 of the CAA with developing national emission standards for 189 listed hazardous air pollutants (HAP). The Aerospace Manufacturing and Rework Facilities Maximum Achievable Control Technology (Aerospace MACT) standard (40 CFR 63, subpart GG), is a National Emission Standard for Hazardous Air Pollutants (NESHAP) developed under the authority of section 112(d) of the CAA. EPA is required to review each MACT standard and to revise them "as necessary (taking into account developments in practices, processes and control technologies)" no less frequently than every eight years.

These reviews are commonly referred to as "technology reviews." In addition, EPA is required to assess the risk remaining (residual risk) after each MACT standard and promulgate more stringent standards if they are necessary to protect public health. Under EPA's residual risk and technology review (RTR) program, EPA is addressing these two requirements concurrently. EPA is updating the information they currently possess and filling identified data gaps in that information in order to provide a thorough basis for the RTR efforts. The data collection effort will gather additional information to allow comprehensive and technically sound analyses that will form the basis for future rulemaking decisions. Responses to the ICR are mandatory under the authority of section 114 of the CAA.

*Burden Statement:* The one-time public reporting burden for this collection of information is estimated to average 30.75 hours for a small facility, 86.75 hours for a medium sized facility and 142.75 hours for a large sized facility per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here. Approximately 1,000 facilities are expected to respond to this ICR. Responses are required one time only; this is not a continuing collection. The total estimated public burden is 29,704 hours and \$1,430,543. By facility, the burden is estimated to be \$1,703 for a small sized facility, \$4,804 for a medium sized facility and \$7,906 for a large sized facility. These burden estimates are based on labor costs for technical, managerial and clerical staff. No capital or operation and maintenance costs are involved for responding to this ICR.

### What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: June 11, 2010.

### Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) or Superfund, Brownfields Amendments, Section 104(k); Notice of Revisions to FY2011 Guidelines for Brownfields Assessment, Revolving Loan Fund, and Cleanup Grants

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** Section 104(k)(5)(A)(iii) of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) requires EPA to publish guidance to assist applicants in preparing proposals for grants to assess and clean up brownfield sites. EPA's Brownfields Program provides funds to empower states, communities, tribes and nonprofits to prevent, inventory, assess, clean up and reuse brownfield sites. In FY 2011, EPA has revised the Brownfields Grant Proposal Guidelines (guidelines) and is soliciting comments on those revisions. EPA provides brownfields funding for three types of grants: Assessment, revolving loan fund and cleanup.

**DATES:** Publication of this notice will start a five working day comment period on revisions to the FY 2011 Brownfields Grant Guidelines. Comments will be accepted through July 2, 2010. EPA expects to release a Request for Proposals based on these revised guidelines in late summer of 2010.

**ADDRESSES:** The draft guidelines can be downloaded at: <http://www.epa.gov/brownfields/>. If you do not have Internet access and require hard copies of the draft guidelines please contact Rachel Lentz at (202) 566-2745. Please send any comments to Rachel Lentz at [lentz.rachel@epa.gov](mailto:lentz.rachel@epa.gov) no later than July 2, 2010.

**FOR FURTHER INFORMATION CONTACT:** The U.S. EPA's Office of Solid Waste and Emergency Response, Office of Brownfields and Land Revitalization, (202) 566-2777.

**SUPPLEMENTARY INFORMATION:** Comments will be accepted through July 2, 2010. Please note that in accordance with 5 U.S.C. 553(a)(2), EPA is not undertaking notice and comment rulemaking and has not established a docket to receive public comments on the guidelines. Rather, the Agency as a matter of policy is soliciting the views of interested parties on the draft FY 2011 Assessment, Revolving Loan Fund and Cleanup Guidelines. Please note that these draft guidelines are subject to change. Organizations interested in applying for Brownfields funding must follow the instructions contained in the final guidelines that EPA publishes on <http://www.grants.gov>, rather than these draft guidelines.

There are three types of grants that applicants may apply for under these guidelines:

1. *Brownfields Assessment Grants*—which provide funds to inventory, characterize, assess, and conduct area-wide planning, cleanup and redevelopment planning and community involvement related to brownfield sites.
2. *Brownfields Revolving Loan Fund Grants*—which provide funding for a grant recipient to capitalize a revolving loan fund and to provide subgrants to carry out cleanup activities at brownfield sites.
3. *Brownfields Cleanup Grants*—which provide funds to carry out cleanup activities at a specific brownfield site owned by the applicant.

(The Catalogue of Federal Domestic Assistance entry for Brownfields Grants is 66.818.)

Dated: June 16, 2010.

**David R. Lloyd,**

*Director, Office of Brownfields and Land Revitalization, Office of Solid Waste and Emergency Response.*

### Draft of the 2010 Causal Analysis/Diagnosis Decision Information System (CADDIS)

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of external review draft for public review and comment.

**SUMMARY:** The U.S. Environmental Protection Agency (EPA) is announcing a 30-day public review and comment period for the draft Web site, "2010 release of the Causal Analysis/Diagnosis Decision Information System (CADDIS)." The CADDIS Web site was developed and prepared by EPA's National Center for Environmental Assessment (NCEA), in the Office of Research and Development (ORD). EPA will consider public comments submitted in accordance with this notice and may revise the draft Web site thereafter. The draft 2010 CADDIS Web site is available at <http://caddis-review.tetratex-ffx.com/index.html>.

**DATES:** The public comment period begins June 22, 2010, and ends July 22, 2010. Comments should be in writing and must be received by EPA by July 22, 2010.

Comments may be submitted electronically via <http://www.regulations.gov>, by e-mail, by mail, by facsimile, or by hand delivery/courier. Please follow the detailed instructions provided in the **SUPPLEMENTARY INFORMATION** section of this notice.

**FOR FURTHER INFORMATION CONTACT:** For information on the docket, <http://www.regulations.gov>, or the public comment period, please contact the Office of Environmental Information (OEI) Docket (Mail Code: 2822T), U.S. Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone: 202-566-1752; facsimile: 202-566-1753; or e-mail: [ORD.Docket@epa.gov](mailto:ORD.Docket@epa.gov).

For technical information, please contact Laurie Alexander, National Center for Environmental Assessment (8623P), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone: 703-347-8630; facsimile: 703-347-8692; or e-mail: [alexander.laurie@epa.gov](mailto:alexander.laurie@epa.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Information About CADDIS

Over a thousand water bodies in the United States are listed by states as

biologically impaired. For many of these sites, the cause of impairment is reported as "unknown." Before appropriate management actions can be formulated for impaired water bodies, the causes of biological impairment (e.g., excess fine sediments, nutrients, or toxics) must be identified. Effective causal analyses require knowledge of the mechanisms, symptoms, and stressor-response relationships for various stressors, as well as the ability to use that knowledge to draw appropriate, defensible conclusions. To aid in these causal analyses, NCEA developed CADDIS, which is a web-based decision support system that will help regional, state, and tribal investigators find, access, organize, and share information useful for causal evaluations in aquatic systems. CADDIS is based on EPA's Stressor Identification process, which is a formal method for identifying causes of impairments in aquatic environments. Features include a step-by-step guide to conducting causal analysis; examples and applications; a library of conceptual models; and an online application for collaborating on conceptual diagrams and using them to update and access a database of supporting literature, information on basic and advanced data analyses, downloadable software tools, and links to outside information sources.

##### II. How to Submit Comments to the Docket at <http://www.regulations.gov>

Submit your comments, identified by Docket ID No. EPA-HQ-ORD-2010-0534, by one of the following methods:

- <http://www.regulations.gov>: Follow the on-line instructions for submitting comments.

- *E-mail:* [ORD.Docket@epa.gov](mailto:ORD.Docket@epa.gov).
- *Facsimile:* 202-566-1753.
- *Mail:* Office of Environmental Information (OEI) Docket (Mail Code: 2822T), U.S. Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460. The telephone number is 202-566-1752. If you provide comments by mail, please submit one unbound original with pages numbered consecutively, and three copies of the comments. For attachments, provide an index, number pages consecutively with the comments, and submit an unbound original and three copies.

- *Hand Delivery:* The OEI Docket is located in the EPA Headquarters Docket Center, EPA West Building, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the
