**Department of Commerce.**

International Trade Administration,

Quarterly Update to Annual Listing of Foreign Government Subsidies on Articles of Cheese Subject to an In-Quota Rate of Duty

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**DATES:** Effective Date: June 23, 2010.

**SUPPLEMENTARY INFORMATION:** Section 702 of the Trade Agreements Act of 1979 (as amended) ("the Act") requires the Department of Commerce ("the Department") to determine, in consultation with the Secretary of Agriculture, whether any foreign government is providing a subsidy with respect to any article of cheese subject to an in-quota rate of duty, as defined in section 702(h) of the Act, and to publish an annual list and quarterly updates to the type and amount of those subsidies. We hereby provide the Department’s quarterly update of subsidies on articles of cheese that were imported during the period January 1, 2010, through March 31, 2010. The Department has developed, in consultation with the Secretary of Agriculture, information on subsidies (as defined in section 702(h) of the Act) being provided either directly or indirectly by foreign governments on articles of cheese subject to an in-quota rate of duty. The appendix to this notice lists the country, the subsidy program or programs, and the gross and net amounts of each subsidy for which information is currently available. The Department will incorporate additional programs which are found to constitute subsidies, and additional information on the subsidy programs listed, as the information is developed.

The Department encourages any person having information on foreign government subsidy programs which benefit articles of cheese subject to an in-quota rate of duty to submit such information in writing to the Assistant Secretary for Import Administration, U.S. Department of Commerce, 14th Street and Constitution Ave., N.W., Washington, DC 20230.

This determination and notice are in accordance with section 702(a) of the Act.

Dated: June 17, 2010.

Ronald K. Lorentzen, Deputy Assistant Secretary for Import Administration.

that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Order

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/ destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation. This notice is published in accordance with section 777(i)(1) of the Act, and 19 CFR 351.213(d)(4).

Dated: June 18, 2010.

Gary Taverman,
Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

BILLING CODE 3510–DS–S

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

Notice of Intent To Prepare a Draft Environmental Impact Statement/Environmental Impact Report (DEIS/DEIR) for a Permit Application for the Proposed Salton Sea Species Conservation Habitat Project at the Salton Sea, in Riverside and Imperial Counties, CA

AGENCY: U.S. Army Corps of Engineers, Los Angeles District, DoD.

ACTION: Notice of Intent (NOI).

SUMMARY: The U.S. Army Corps of Engineers (Corps), in conjunction with the California Natural Resources Agency, is preparing an EIS/DEIR for the Salton Sea Species Conservation Habitat (SCH) Project. The Corps is considering the Natural Resources Agency’s application for a Department of the Army permit under section 404 of the Clean Water Act to construct habitat configured in a series of interconnected shallow ponds within the current footprint of the Salton Sea. Preliminary evaluations of potential siting areas indicate that ponds could be constructed at either the north or south ends of the Salton Sea, or in both areas. The SCH Project would be created as the Sea recedes by constructing dikes below the elevation of – 228 feet mean sea level (msl) using material excavated from the sea bed. Rivers, which have better water quality than agricultural drain water, would provide the source of water for the ponds. The Project size at total build-out is currently expected to be approximately 2,400 acres, which may be constructed over a period of several years depending on land availability and cost. The final project size may vary depending on the outcome of the alternatives development process. Habitat ponds would vary in size, with several ponds constructed in each phase depending on land availability. Habitat would continue to be constructed in phases in subsequent years as the Sea recedes until the targeted acreage of habitat was constructed. The habitat would be designed with varying ranges of salinity in order to maximize biological productivity and minimize adverse effects associated with water quality. It is anticipated that the SCH Project would begin construction in late 2011 or early 2012.

The primary Federal involvement is the potential issuance of a permit under section 404 of the Clean Water Act, which regulates the discharge of dredged, excavated, or fill material in wetlands, streams, rivers, and other U.S. waters, as well as the evaluation of potential impacts on the human environment from such activities. Therefore, in accordance with the National Environmental Policy Act (NEPA), the Corps is requiring the preparation of an EIS prior to consideration of any permit action. The action must comply with the Section 404(b)(1) Guidelines (40 CFR part 230) and not be contrary to the public interest to be granted a Corps permit. The Corps may ultimately make a determination to permit or deny the above project or permit or deny modified versions of the above project.

Pursuant to the California Environmental Quality Act (CEQA), the Natural Resources Agency will be the Lead Agency for the preparation of an EIR and will use the EIR when considering whether to approve the project. The California Department of Fish and Game (DFG) will act on behalf of the Natural Resources Agency to prepare the EIR and may issue incidental take authorization under section 2081 of the California Endangered Species Act and a Streambed Alteration Agreement under section 1602 of the California Fish and Game Code. The Corps and the Natural Resources Agency have agreed to jointly prepare the EIS/DEIR to optimize efficiency and avoid duplication. The EIS/DEIR is intended to be sufficient in
