Clean Air Act Operating Permit Program; Petition for Objection to a Federal Operating Permit for Waste Management of Louisiana L.L.C., Woodside Landfill and Recycling Center (WLRC), Walker, Livingston Parish, LA**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice of final action.

SUMMARY: This document announces that the EPA Administrator has responded to a citizen petition asking EPA to object to the part 70 Operating Permit for WLRC, Walker, Livingston Parish, Louisiana, issued by the Louisiana Department of Environmental Quality. Specifically, the Administrator has partially granted and partially denied the petition submitted by Tulane Environmental Law Clinic on behalf of the Louisiana Environmental Action Network, Concerned Citizens of Livingston Parish, Mr. O'Neil Couvillion, and Mr. Harold Wayne Bread (Petitioners), to object to the part 70 operating permit for WLRC in Livingston Parish, Louisiana.

Pursuant to section 505(b)(2) of the Clean Air Act (Act), the petitioner may seek judicial review of those portions of the petition which EPA denied in the United States Court of Appeals for the appropriate circuit. Any petition for review shall be filed within 60 days from the date this notice appears in the **Federal Register**, pursuant to section 307 of the Act.

ADDRESSES: You may review copies of the final order, the petition, and other supporting information at EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733. EPA requests that if at all possible, you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view copies of the final order, petition, and other supporting information. If you wish to examine these documents, you should make an appointment at least 24 hours before visiting day. The final order is also available electronically at: http://www.epa.gov/region07/air/title5/petitiondb/petitions/woodside_decision2009.pdf.

FOR FURTHER INFORMATION CONTACT: Bonnie Braganza, Air Permits Section, Multimedia Planning and Permitting Division, EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733, telephone (214) 665-7340, or email at braganza.bonnie@epa.gov.

SUPPLEMENTARY INFORMATION: The Act affords EPA a 45-day period to review, and, as appropriate, object to operating permits proposed by State permitting authorities under Title V of the Act. Section 505(b)(2) of the Act authorizes any person to petition the EPA Administrator within 60 days after the expiration of this review period to object to title V operating permits if EPA has not done so. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the State, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issues arose after this period.

On January 2, 2009, EPA received a petition from the Petitioners requesting that EPA object to the issuance of the title V operating permit to WLRC for the operation of the landfill in Walker, Livingston Parish, Louisiana. The petitioners claim that: (1) The title V permit fails to include monitoring requirements sufficient to assure compliance with permit limits; (2) LDEQ erred in determining the amount of carbon monoxide emissions for purposes of assessing the applicability of Prevention of Significant Deterioration requirements; (3) the title V permit fails to include nonattainment new source review; and (4) LDEQ failed to meet the public notice requirements before issuing the title V permit.

On May 27, 2010, the Administrator issued an order partially granting and partially denying the petition. The order explains the reasons behind EPA's conclusion to partially grant and partially deny the petition for objection.

Dated: June 11, 2010.

Al Armendariz,*Regional Administrator, Region 6.*

Notice of a Regional Project Waiver of Section 1605 (Buy American) of the American Recovery and Reinvestment Act of 2009 (ARRA) to the City of Newport, RI**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: The EPA is hereby granting a waiver of the Buy American

requirements of ARRA Section 1605 under the authority of Section 1605(b)(2) [manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality] to the City of Newport, RI ("City") for the purchase of a foreign manufactured ultraviolet (UV) light disinfection treatment system for the Easton Beach Project in Newport, Rhode Island. This is a project specific waiver and only applies to the use of the specified product for the ARRA project being proposed. Any other ARRA recipient that wishes to use the same product must apply for a separate waiver based on project specific circumstances. Based upon information submitted by the City and its consulting engineer, it has been determined that there are currently no domestically manufactured UV disinfection treatment systems available to meet the City's project specifications and construction schedule. The Regional Administrator is making this determination based on the review and recommendations of the Municipal Assistance Unit. The Assistant Administrator of the Office of Administration and Resources Management has concurred on this decision to make an exception to Section 1605 of ARRA. This action permits the purchase of a foreign manufactured UV light disinfection treatment system by the City, as specified in its February 4, 2010 request.

DATES: *Effective Date:* June 15, 2010.**FOR FURTHER INFORMATION CONTACT:**

Katie Connors, Environmental Engineer, (617) 918-1658, or David Chin, Environmental Engineer, (617) 918-1764, Municipal Assistance Unit (CMU), Office of Ecosystem Protection (OEP), U.S. EPA, 5 Post Office Square, Suite 100, Boston, MA 02109-3912.

SUPPLEMENTARY INFORMATION: In accordance with ARRA Section 1605(c), the EPA hereby provides notice that it is granting a project waiver of the requirements of Section 1605(b)(2) of Public Law 111-5, Buy American requirements, to the City of Newport, RI ("City") for the purchase of a non-domestically manufactured medium-pressure UV light disinfection treatment system from Trojan Technologies, manufactured in Canada, to meet the City's design and performance specifications and construction schedule as part of its proposed Easton Beach Project in Newport, RI. Trojan Technologies has a U.S. manufacturing facility in Ontario, California, but that site is not currently equipped to conduct a specific product test
