[Docket No. CP10-452-000]

Natural Gas Pipeline Company of America LLC; Notice of Application

June 17, 2010.

Take notice that on June 8, 2010, Natural Gas Pipeline Company of America LLC (Natural), 3250 Lacey Road, 7th Floor, Downers Grove, Illinois 60515-7918, filed in Docket Number CP10-452-000, pursuant to sections 7(b) and 7(c) of the Natural Gas Act (NGA), an application to abandon two injection/withdrawal wells and appurtenant facilities in the Columbus City storage field, located in Louisa County, Iowa, and a certificate of public convenience and necessity to construct, and operate two replacement wells, increase the cumulative peak day deliverability in the Columbus City St. Peter reservoir from 45 MMcf/d to 55 MMcf/d, and provide an additional 0.5 Bcf of storage service from the Columbus City St. Peter reservoir. The total cost for the proposed facilities is \$2,914,853 plus \$300,000 for the proposed abandonment. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Any questions regarding this Application should be directed to Bruce H. Newsome, Vice President, Natural Gas Pipeline Company of America, LLC, 3250 Lacey Road, 7th Floor, Downers Grove, Illinois 60515-7918, phone (630) 725-3070 or bruce_newsome@kindermorgan.com.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding, or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record

for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify Federal and State agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all Federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the below listed comment date, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters

will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Motions to intervene, protests and comments may be filed electronically via the internet in lieu of paper; see, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

Comment Date: July 8, 2010.

Kimberly D. Bose,
Secretary.

[Project No. 12721-004]

Pepperell Hydro Company, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments and Motions To Intervene

June 17, 2010.

On March 9, 2010, the Pepperell Hydro Company, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the East Pepperell Project, located on the Nashua River in Middlesex County, Massachusetts. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of: (1) The existing 27-foot-high, 275-foot-long East Pepperell Dam; (2) an existing intake; (3) an existing 1,465-acre impoundment at a normal maximum water surface elevation of 199.8 feet above mean sea level (with 3-foot-high flashboards in place); (4) an existing 13-foot-diameter, 666-foot-long wood stave penstock; (5) a powerhouse containing three existing generating units and a new low-flow turbine generator located adjacent to the intake gates with a total installed capacity of 2,070 kilowatts; (6) an existing tailrace; (7) an existing switchyard; (8) an existing 7.5-mile-long, 69-kilovolt transmission line owned by National Grid; and (9) appurtenant facilities. The project would have an estimated average annual generation of approximately 8,123 megawatt-hours.

Applicant Contact: Peter B. Clark, Pepperell Hydro Company LLC, P.O. Box 149, 823 Bay Road, Hamilton, MA 01936, (978) 468-3999.
