SUPPLEMENTARY INFORMATION:

Background
On February 20, 2009, we published a notice of proposed rulemaking (NPRM) entitled “Drawbridge Operation Regulations; Atlantic Intracoastal Waterway, (AIWW) Scotts Hill, NC” in the Federal Register (74 FR 7844–7847). The rulemaking would have allowed the drawbridge to open on signal every hour on the half hour for the passage of pleasure vessels. Our investigation along with comments received revealed that the proposed change would significantly increase delays to recreational boaters and would provide an unsafe environment for slow moving vessel traffic.

Withdrawal
The Figure Eight Homeowner Association Inc. (FEHAI), who owns and operates the Figure Eight Swing Bridge, had requested a change to the existing regulations in an effort to improve the schedule for both roadway and waterway users. The swing bridge provides the only route on and off Figure Eight Island. The proposal would not have changed the requirement for the bridge to open on signal at any time for commercial and government vessels. FEHAI believed that the proposal would facilitate pleasure craft in navigating the AIWW, and also help ease vehicular traffic congestion.

The Coast Guard received several comments opposing changes to the proposed rulemaking. We conducted a lengthy and thorough investigation that included a site visit.

Our investigation along with the majority of the comments revealed that the request to change the regulations for pleasure craft from half-hour openings to hourly openings would not affect power boats along the AIWW, but would significantly affect sailboats. Increasing travel time between drawbridge openings will increase the number of vessels waiting for an opening in a narrow and restricted channel, making safe navigation more difficult. In addition, no data was submitted to the docket to support concerns that vehicle traffic across the bridge had increased or was unreasonably impeded by the current operating schedule of the bridge. The proposed amendment to the operating schedule is withdrawn because this change would not improve drawbridge operations.

Authority
This action is taken under the authority of 33 U.S.C. 499; 33 CFR 1.05–1; Department of Homeland Security Security Delegation No. 0170.1.

Dated: June 9, 2010.

40 CFR Parts 271 and 272

Arkansas: Final Authorization of State-Initiated Changes and Incorporation by Reference of State Hazardous Waste Management Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: During a review of Arkansas’ regulations, the EPA identified a variety of State-initiated changes to Arkansas’ hazardous waste program under the Resource Conservation and Recovery Act, as amended (RCRA), for which the State had not previously sought authorization. The EPA proposes to authorize the State for the program changes. In addition, the EPA proposes to codify in the regulations entitled “Approved State Hazardous Waste Management Programs”, Arkansas’ authorized hazardous waste program. The EPA will incorporate by reference into the Code of Federal Regulations (CFR) those provisions of the State regulations that are authorized and that EPA will enforce under RCRA.

DATES: Send written comments by July 28, 2010.

ADDRESSES: Send written comments to Alina Patterson, Region 6, Regional Authorization Coordinator, (6PD–O), Multimedia Planning and Permitting Division, EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202–2733, phone number (214) 665–8533. You may also submit comments electronically or through hand delivery/courier; please follow the detailed instructions in the ADDRESSES section of the direct final rule which is located in the Rules section of this Federal Register.

FOR FURTHER INFORMATION CONTACT: Alina Patterson, (214) 665–8533.

SUPPLEMENTARY INFORMATION: In the “Rules and Regulations” section of this Federal Register, the EPA is authorizing the changes to the Arkansas program, and codifying and incorporating by reference the State’s hazardous waste program as a direct final rule. The EPA did not make a proposal prior to the direct final rule because we believe these actions are not controversial and do not expect comments that oppose them. We have explained the reasons for this authorization and incorporation by reference in the preamble to the direct final rule. Unless we get written comments which oppose this authorization and incorporation by reference during the comment period, the direct final rule will become effective on the date it establishes, and we will not take further action on this proposal. If we get comments that oppose these actions, we will withdraw the direct final rule and it will not take effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment. If you want to comment on this action, you must do so at this time.

For additional information, please see the direct final rule published in the “Rules and Regulations” section of this Federal Register.

Lawerence E. Starfield,
Regional Administrator, EPA Region 6.
