

review the information (½ hour per firm) is approximately \$3,071. Assuming that the employee reviewing the records will be a GS-14 level employee, the average hourly wage rate for a mid-level GS-14 employee in the Washington, DC metropolitan area, effective as of January 2010, is \$57.33. This represents 70 percent of total compensation (Bureau of Labor Statistics, March 2010, percentage wages and salaries for all civilian management, professional, and related employees, Table 1). Adding an additional 30 percent for benefits brings average hourly compensation for a mid-range GS-14 employee to \$81.89. Thus, 37.5 hours multiplied against an hourly compensation figure of \$81.89 results in an estimated cost to the government of \$3,070.87, which we have rounded up to \$3,071.
