national experts. The second goal is to assess impacts of the GRFP on graduate school experiences through a follow-up study of GRFP award recipients and other applicants. The third goal is to assess impacts of the GRFP on career and professional outcomes through analysis of GRFP participants and comparable national populations. The fourth goal is to assess the benefits of the GRFP on institutions that enroll GRFP Fellows. The evaluation is designed to address research questions that explore the influences of the GRFP on the following broad sets of variables:

- Educational decisions, experiences, and graduate degree attainment of STEM graduate students.
- Career preparation and aspirations.
- Career activities, progress, and job characteristics following graduate school.
- Professional productivity.
- Workforce participation and career outcomes.
- Graduate school institutions and student recruitment at GRFP-sponsoring institutions.
- Faculty attitudes at GRFP-sponsoring institutions.
- Diversity of students participating in STEM fields at GRFP-sponsoring institutions.

This survey would address two separate components of the planned GRFP evaluation. First, this component will assess the influence of GRFP awards on recipients’ graduate school experience and outcomes, which includes program of study and institution attended, professional productivity (e.g., publishes papers, conference presentations, etc.) during graduate schools and career aspirations. Second, the survey will evaluate the impact of participation in the in the GRFP on subsequent career options, progress and contributions to respondents’ professional fields. This will be conducted as a web-based survey.

**Estimate of Burden:** Public reporting burden for this collection of information is estimated to average 30 minutes for current graduate students and 40 minutes per graduates.

**Respondents:** Individuals.

**Estimated Number of Responses per Form:** 2,826 graduate students; 6,429 graduates.

**Estimated Total Annual Burden on Respondents:** 5,699 hours (2,826 graduate student respondents at 30 minutes per response = 1,413 hours + 6,429 graduate respondents at 40 minutes per response = 2,826 hours).

**Frequency of Response:** One time.

**Comments:** Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the NSF, including whether the information shall have practical utility; (b) the accuracy of the NSF’s estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical or other technological collection techniques or other forms of information technology.

Dated: June 22, 2010.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.

**Committee Management Renewals**

The NSF management officials having responsibility for the advisory committees listed below have determined that renewing these groups for another two years is necessary and in the public interest in connection with the performance of duties imposed upon the Director, National Science Foundation (NSF), by 42 U.S.C. 1861 et seq. This determination follows consultation with the Committee Management Secretariat, General Services Administration.

**Committees**

Committee on Equal Opportunities in Science and Engineering, 1173
Advisory Committee for Computer and Information Science and Engineering, 1115
Advisory Committee for GPRA Performance Assessment, 13853
Advisory Committee for Mathematical and Physical Sciences, 66
Advisory Committee for Social, Behavioral, and Economic Sciences, 1171
Business and Operations Advisory Committee, 9556
Proposal Review Panel for Astronomical Sciences, 1186
Proposal Review Panel for Chemical, Bioengineering, Environmental, and Transport Systems, 1189
Proposal Review Panel for Chemistry, 1191
Proposal Review Panel for Civil, Mechanical, and Manufacturing Innovation, 1194
Proposal Review Panel for Computer and Network Systems, 1207
Proposal Review Panel for Computing & Communication Foundations, 1192
Proposal Review Panel for Cyberinfrastructure, 1185
Proposal Review Panel for Electrical Communications and Cyber Systems, 1196
Proposal Review Panel for Engineering Education and Centers, 173
Proposal Review Panel for Experimental Programs to Stimulate Competitive Research, 1198
Proposal Review Panel for Graduate Education, 57
Proposal Review Panel for Human Resource Development, 1199
Proposal Review Panel for Information and Intelligent Systems, 1200
Proposal Review Panel for Materials Research, 1203
Proposal Review Panel for Mathematical Sciences, 1204
Proposal Review Panel for Physics, 1208
Proposal Review Panel for Polar Programs, 1209
Proposal Review Panel for Undergraduate Education, 1214
Effective date for renewal is July 1, 2010. For more information, please contact Susanne Bolton, NSF, at (703) 292–7488.

Susanne Bolton,
Committee Management Officer.
