and to handle it in accordance with the 
FIFRA Information Security Manual. In 
addition, Dynamac Corporation is 
required to submit for EPA approval a 
security plan under which any CBI will 
be secured and protected against 
unauthorized release or compromise. No 
information will be provided to 
Dynamac Corporation until the 
requirements in this document have 
been fully satisfied. Records of 
information provided to Dynamac 
Corporation will be maintained by EPA 
Project Officers for this contract. All 
information supplied to Dynamac 
Corporation by EPA for use in 
connection with this contract will be 
returned to EPA when Dynamac 
Corporation has completed its work.

List of Subjects

Environmental protection, Business 
and industry, Government contracts, 
Government property, Security 
measures.

Oscar Morales, 
Acting Director, Office of Pesticide Programs.

BILLING CODE 6560–50–S

FEDERAL COMMUNICATIONS 
COMMISSION

Notice of Public Information 
Collection(s) Being Reviewed by the 
Federal Communications Commission, 
Comments Requested

June 24, 2010.

SUMMARY: The Federal Communications 
Commission, as part of its continuing 
effort to reduce paperwork burden 
invites the general public and other 
Federal agencies to take this 
opportunity to comment on the 
following information collection(s), as 
required by the Paperwork Reduction 
Act (PRA) of 1995, 44 U.S.C. 3501 – 
3520. Comments are requested 
concerning: (a) whether the proposed 
collection of information is necessary 
for the proper performance of the 
functions of the Commission, including 
whether the information shall have 
practical utility; (b) the accuracy of the 
Commission’s burden estimate; (c) ways 
to enhance the quality, utility, and 
clarity of the information collected; (d) 
ways to minimize the burden of the 
collection of information on the 
respondents, including the use of 
automated collection techniques or 
other forms of information technology, 
and (e) ways to further reduce the 
information collection burden on small 
business concerns with fewer than 25 
employees. The FCC may not conduct or sponsor a 
collection of information unless it displays a currently valid control number. No person shall be subject to 
any penalty for failing to comply with a 
collection of information subject to the 
Paperwork Reduction Act (PRA) that 
does not display a currently valid OMB 
control number.

DATES: Written Paperwork Reduction 
Act (PRA) comments should be 
submitted on or before August 30, 2010. 
If you anticipate that you will be 
submitting PRA comments, but find it 
difficult to do so within the period of 
time allowed by this notice, you should 
advise the FCC contact listed below as 
soon as possible.

ADDRESSES: Direct all PRA comments to 
Nicholas A. Fraser, Office of Management and Budget, via fax at 202– 
395–5167 or via the Internet at 
Nicholas A. Fraser@omb.eop.gov and to the Federal Communications 
Commission via email to PRA@fcc.gov.

FOR FURTHER INFORMATION CONTACT: 
Judith B. Herman, Office of Managing 
Director, (202) 418–0214. For additional 
information, contact Judith B. Herman, 
OMD, 202–418–0214 or email judith– 
b.herman@fcc.gov.

SUPPLEMENTARY INFORMATION: 
OMB Control Number: 3060–1140. 
Title: Requests for Waiver of Various 
Petitioners to Allow the Establishment 
of 700 MHz Interoperable Public Safety 
Wireless Broadband Networks. 
Form No.: N/A. 
Type of Review: Extension of a 
currently approved collection. 
Respondents: State, local or tribal 
government. 
Number of Respondents and 
Responses: 50 respondents; 200 
responses. 
Estimated Time Per Response: 1 hour 
– 200 hours. 
Frequency of Response: On occasion, 
quarterly and one time reporting 
requirements. 
Obligation to Respond: Required to 
obtain or retain benefits. Statutory 
authority for this information collection 
is contained in 47 U.S.C. sections 151, 
154, 301, 303, 332 and 337. 
Total Annual Burden: 18,250 hours. 
Total Annual Cost: N/A. 
Privacy Act Impact Assessment: N/A. 
Nature and Extent of Confidentiality: 
There is no need for confidentiality. 
Needs and Uses: In the Order in PS 
Docket No. 06–229, FCC 10–79, the 
Commission grants, with conditions, 21 
waiver petitions filed by public safety 
entities (“Petitioners”) seeking early 
deployment of statewide or local public 
safety broadband networks in the 700 
MHz spectrum. This waiver serves the 
public interest by allowing state and 
local jurisdictions to begin broadband 
deployment and speed services to the 
public safety community. This will also 
allow the Petitioners to take advantage 
of available or potential funding, either 
through grants or planned budgetary 
expenditures, as well as to take 
advantage of economies of scale and 
other cost saving measures for 
deployments that are already planned. 
In addition, Petitioners could benefit 
from the announced plans of some 
commercial carriers to begin 
construction of LTE–based networks 
this year and early next year, which 
would result in significant cost–savings. 
On May 21, 2010, the Commission’s 
Public Safety and Homeland Security 
Bureau released a Public Notice 
providing further guidance on the 
requirements set forth in the Order. 
One of the conditions for such waiver 
is the submission of interoperability 
plans to the Commission’s Emergency 
Response Interoperability Center 
(“ERIC”). The Commission recently 
decided to establish ERIC to promote 
appropriate technical requirements that 
will ensure interoperability for these 
early deployments from their inception, 
as well as for any future deployed 
networks. Given the rapidly evolving 
nature of 3GPP deployments and 
standards, submission of the Petitioners’ 
interoperability plans will help ensure 
interoperability and roaming among 
these early deployments.

Another condition of waiver is 
certification by Petitioners that their 
vendors are participating actively in the 
PS/CR/DC Demonstration Network 
which will provide an open platform for 
development and testing of public safety 
700 MHz LTE broadband equipment. 
This is important to ensure that, early in 
the deployment stage, new broadband 
equipment is being developed to 
support the network meets public 
safety’s use expectations, will work in a 
multivendor environment, and allows 
for roaming across multiple networks. 
We also require each Petitioner to 
enter into a de facto spectrum lease with 
the Public Safety Spectrum Trust 
(“PSST”) in accordance with the terms 
and conditions of the Order. These 
leases must be submitted for approval 
by the Commission’s Chief of the Public 
Safety and Homeland Security Bureau 
within 60 days of approval by OMB. 
We also require each Petitioner, 
before deployment, to coordinate and 
address interference mitigation needs 
without any adjacent or bordering 
jurisdictions that also plan deployment, 
memorialize these agreements in
writing, and submit them to ERIC within 30 days of their completion. Similarly, we require that parties provide ERIC with notice of any changes or updates within 30 days.

In light of the novel nature of these deployments and the ongoing standards and equipment development for LTE, we emphasize that diligent pursuit of deployment is expected. In this respect, we also require Petitioners to file, in consultation with the PSST, 30 days after approval by OMB quarterly thereafter, status reports with the Commission’s Public Safety and Homeland Security Bureau addressing the Petitioners’ progress in three areas: 1) planning; 2) funding; and 3) deployment.

The Commission requested emergency OMB approval on June 1, 2010 for this new information collection. We received OMB approval on June 18, 2010. Emergency OMB approvals are only granted for six months. Therefore, the Commission is now required to conduct all the regular submission processes when seeking the three year clearance from OMB. We are now requesting an extension (no change in the reporting requirements). There is no change in the Commission’s burden estimates.

Federal Communications Commission.
Marlene H. Dortch, Secretary, Office of the Secretary, Office of Managing Director.

BILLING CODE 6712–01–S

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority, Comments Requested

June 24, 2010.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, 44 U.S.C. 3501 – 3520. Comments are requested concerning: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission’s burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology, and (e) ways to further reduce the information collection burden for small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a currently valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before August 30, 2010. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, Office of Management and Budget, via fax at 202–395–5167 or via the Internet at Nicholas A. Fraser@omb.eop.gov and to the Federal Communications Commission via email to PRA@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Judith B. Herman, Office of Managing Director, (202) 418–0214. For additional information, contact Judith B. Herman, OMD, 202–418–0214 or email judith–b.herman@fcc.gov.

SUPPLEMENTARY INFORMATION:
OMB Control Number: 3060–0950.
Title: Bidding Credits for Tribal Lands.
Form No.: N/A.
Type of Review: Extension of a currently approved collection.
Respondents: Business or other for-profit, not–for–profit institutions, and state, local or tribal government.
Number of Respondents and Responses: 5 respondents; 5 responses.
Estimated Time Per Response: 10 – 180 hours.
Frequency of Response: On occasion reporting requirement and recordkeeping requirement.
Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. section 309(j). Total Annual Burden: 1,000 hours. Total Annual Cost: $180,000. Privacy Act Impact Assessment: N/A. Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: The Commission will submit this existing information collection to the Office of Management and Budget (OMB) after this comment period to obtain the full three year clearance from them. There is no change in the reporting requirements. The Commission is reporting a 400 hour increase in burden which is due to an increase in the number of respondents.

On June 8, 2000, the Commission adopted a Report and Order which established rules and policies to encourage deployment of wireless services to tribal lands pursuant to the objectives and requirements of Section 309(j)(3) and (4) of the Communications Act of 1934, as amended, and in conjunction with data from the U.S. Census which indicted that communities on tribal lands have historically had less access to telecommunications services than any other segment of the population.

On March 7, 2003, the Commission adopted a Second Report and Order which extended the time period during which winning bidders can negotiate with relevant tribes to obtain the certification needed to obtain the bidding credit in a particular market from 90 days to 180 days. Further, the Second Report and Order clarified various administrative matters involved in implementing the bidding credit.

On August 18, 2004, the Commission adopted a Third Report and Order which raised the wireline telephone penetration rate at which tribal lands are eligible for a bidding credit from 70 percent or less, to 85 percent or less, and increased the amount of the bidding credit available to carriers that pledge to deploy on and serve qualifying tribal lands.

Since the last submission to the OMB, the Commission has adjusted the number of respondents/responses, burden hours and annual costs. This is due to the changing number licenses estimated to be auctioned during a given year. Although few applicants are actually affected, the number of potential participants is in the hundreds, perhaps thousands. In other words, while few applicants have sought to participate in the Tribal Land Bidding Credit (TLBC) program, almost all applicants for licenses for which TLBCs are available could take part in the program. Because so many could possibly take part in the TLBC program, the Commission needs to continue OMB approval for this expiring collection.
