Background

The FHWA's Buy America policy in 23 CFR 635.410 requires a domestic

manufacturing process for any steel or iron products (including protective coatings) that are permanently incorporated in a Federal-aid construction project. The regulation also provides for a waiver of the Buy America requirements when the application would be inconsistent with the public interest or when satisfactory quality domestic steel and iron products are not sufficiently available. This notice provides information regarding the FHWA's finding that a Buy America waiver is appropriate to use non-domestic Machinery and Motor Brakes; 230/460 Volts, three-phase, 60 Hz. The use of the Machinery and Motor brakes is to meet the Federal design code, AASHTO LRFD for Movable Highway Bridge Design Specifications for bascule bridges.

In accordance with section 123 of Division A of the "Consolidated Appropriations Act, 2010" (Pub. L. 111–117), the FHWA published a notice of intent to issue a waiver on its Web site for Machinery and Motor brakes (<http://www.fhwa.dot.gov/construction/contracts/waivers.cfm?id=47>) on April 7, 2010. The FHWA received no comments in response to the publication, which suggests that the Machinery and Motor brakes may not be available domestically. During the 15-day comment period, the FHWA conducted additional nationwide review to locate potential domestic manufacturers for Machinery and Motor brakes. Based on all the information available to the agency, the FHWA concludes that there are no domestic manufacturers for the Machinery and Motor brakes; 230/460 Volts AC, three-phase, 60 HZ.

In accordance with the provisions of section 117 of the SAFETEA—LU Technical Corrections Act of 2008 (Pub. L. 110–244, 122 Stat.1572), the FHWA is providing this notice as its finding that a waiver of Buy America requirements is appropriate. The FHWA invites public comment on this finding for an additional 15 days following the effective date of the finding. Federal Highway Administration

Notice of Final Federal Agency Actions on Proposed Highway in California

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Limitation on Claims for Judicial Review of Actions by the California Department of Transportation (Caltrans), pursuant to 23 U.S.C. 326.

SUMMARY: The FHWA, on behalf of Caltrans, is issuing this notice to announce actions taken by Caltrans and other Federal agencies that are final within the meaning of 23 U.S.C. 139(l)(1). The actions relate to a proposed local roadway project, a pedestrian overcrossing spanning Ted Williams Parkway on Shoal Creek Drive in the County of San Diego, State of California. Those actions grant licenses, permits, and approvals for the project.

DATES: By this notice, the FHWA, on behalf of Caltrans, is advising the public of final agency actions subject to 23 U.S.C. 139(l)(1). A claim seeking judicial review of the Federal agency actions on the highway project will be barred unless the claim is filed on or before December 27, 2010. If the Federal law that authorizes judicial review of a claim provides a time period of less than 180 days for filing such claim, then the shorter time period still applies.

⁴ Because this is a discontinuance proceeding and not an abandonment, trail use/rail banking and public use conditions are not appropriate. Likewise, no environmental or historical documentation is required here under 49 CFR 1105.6(c) and 1105.8(b), respectively.
