

the basic range of 90 to 110 percent of the fair market rent (FMR) for the unit size.

Granted by: Sandra B. Henriquez, Assistant Secretary for Public and Indian Housing.

Date Granted: February 23, 2010.

Reason Waived: The applicant, who is disabled, needs to remain in her current two-bedroom unit where she has a rotating caregiver as well as other support staff. To provide a reasonable accommodation so that this client could be assisted in her current unit and pay no more than 40 percent of her adjusted income toward the family share, the HATC was allowed to approve an exception payment standard that exceeded the basic range of 90 to 110 percent of the FMR.

- *Regulation:* 24 CFR 983.51, 983.204(b) and 983.206(b).

Project/Activity: New York City Housing (NYCHA), New York, NY.

Nature of Requirement: HUD's regulation at 24 CFR 983.51 requires competitive selection of owner proposals for project-based vouchers unless the units were competitively selected under a similar competitive process as described in the regulation. HUD's regulation at 24 CFR 983.204(b) states that in the case of existing housing, the housing assistance payments (HAP) contract must be executed promptly after PHA selection of the owner proposal and PHA inspection of the housing. HUD's regulation at 24 CFR 983.206(b) allows the PHA to add units to an existing PBV HAP contract only during the three-year period immediately following the execution date of that contract.

Granted by: Sandra B. Henriquez, Assistant Secretary for Public and Indian Housing.

Date Granted: February 25, 2010.

Reason Waived: These waivers were granted to ensure the preservation of affordable housing by allowing the mixed-finance modernization of up to 18,000 units, and by providing a guarantee that 2,236 units currently occupied by families with tenant protection tenant-based vouchers would remain available for very low income families upon turnover through the project-based voucher program.

and Operations Division, Office of Public Housing and Voucher Programs, Office of Public and Indian Housing, Department of Housing and Urban Development, 451 7th Street, SW., Room 4210, Washington, DC 20410–5000, telephone (202) 708–0477.

- *Regulation:* 24 CFR 984.303(d).

Project/Activity: Cumberland Housing Authority (CHA), Cumberland, Rhode Island.

Nature of Requirement: HUD's regulation at 24 CFR 984.303(d) limits the extensions of FSS contracts by a public housing agency to 2 years beyond the initial 5-year term of the FSS contract.

Granted by: Sandra B. Henriquez, Assistant Secretary for Public and Indian Housing.

Date Granted: March 30, 2010.

Reason Waived: CHA requested the waiver extend the FSS contract of an FSS participant for 1 month beyond the maximum term to permit him to complete his final goal of being welfare free for 12 months. The waiver was granted because the participant was impeded by illness, involuntary job loss, and complications of gaining full custody of his daughter. Good cause was found to waive the maximum 2-year contract extension for this participant.

Contact: Laure Rawson, Acting Director, Housing Voucher Management and Operations Division, Office of Public Housing and Voucher Programs, Office of Public and Indian Housing, Department of Housing and Urban Development, 451 7th Street, SW., Room 4210, Washington, DC 20410–5000, telephone (202) 708–0477.

- *Regulation:* 24 CFR 984.303(d).

Project/Activity: Sonoma County Housing Authority (SCHA), Santa Rosa, CA.

Nature of Requirement: HUD's regulation at 24 CFR 984.303(d) limits the extensions of FSS contracts by a public housing agency to 2 years beyond the initial 5-year term of the FSS contract.

Granted by: Sandra B. Henriquez, Assistant Secretary for Public and Indian Housing.

Date Granted: February 03, 2010.

Reason Waived: SCHA provided evidence that the participant worked diligently against substantial odds to meet goals of FSS contract. Failure to complete within contract term was due to serious illness as well as job market conditions during severe economic downturn in California.

SUPPLEMENTARY INFORMATION:

I. Background

The ATUS is the Nation’s first federally administered, continuous survey on time use in the United States. It measures, for example, time spent with children, working, sleeping, or doing leisure activities. In the United States, several existing Federal surveys collect income and wage data for individuals and families, and analysts often use such measures of material prosperity as proxies for quality of life. Time-use data substantially augment these quality-of-life measures. The data also can be used in conjunction with wage data to evaluate the contribution of non-market work to national economies. This enables comparisons of production between nations that have different mixes of market and non-market activities.

The ATUS develops nationally representative estimates of how people spend their time. Respondents also report who was with them during activities, where they were, how long each activity lasted, and if they were paid. All of this information has numerous practical applications for sociologists, economists, educators, government policymakers, businesspersons, health researchers, and others, potentially answering the following questions:

- Do the ways people use their time vary across demographic and labor force characteristics, such as age, sex, race, ethnicity, employment status, earnings, and education?
- How much time do parents spend in the company of their children, either actively providing care or being with them while socializing, relaxing, or doing other things?
- How are earnings related to leisure time—do those with higher earnings spend more or less time relaxing and socializing?
- Where do people work—at a workplace, in their homes, or someplace else?

The ATUS data are collected on an ongoing, monthly basis, so time series data will eventually become available, allowing analysts to identify changes in how people spend their time.
