BILLING CODE 6730-01-P

FEDERAL TRADE COMMISSION

[File No. 092 3093]

Twitter, Inc.; Analysis of Proposed Consent Order to Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Proposed Consent Agreement.

SUMMARY: The consent agreement in this matter settles alleged violations of federal law prohibiting unfair or deceptive acts or practices or unfair methods of competition. The attached Analysis to Aid Public Comment describes both the allegations in the draft complaint and the terms of the consent order — embodied in the consent agreement — that would settle these allegations.

DATES: Comments must be received on or before July 26, 2010.

ADDRESSES: Interested parties are invited to submit written comments electronically or in paper form. Comments should refer to "Twitter, Inc.,

File No. 092 3093" to facilitate the organization of comments. Please note that your comment — including your name and your state — will be placed on the public record of this proceeding, including on the publicly accessible FTC website, at (<http://www.ftc.gov/os/publiccomments.shtml>).

Because comments will be made public, they should not include any sensitive personal information, such as an individual's Social Security Number; date of birth; driver's license number or other state identification number, or foreign country equivalent; passport number; financial account number; or credit or debit card number. Comments also should not include any sensitive health information, such as medical records or other individually identifiable health information. In addition, comments should not include any "[t]rade secret or any commercial or financial information which is obtained from any person and which is privileged or confidential. . . ." as provided in Section 6(f) of the FTC Act, 15 U.S.C. 46(f), and Commission Rule 4.10(a)(2), 16 CFR 4.10(a)(2). Comments containing material for which confidential treatment is requested must be filed in paper form, must be clearly labeled "Confidential," and must comply with FTC Rule 4.9(c), 16 CFR 4.9(c).¹

Because paper mail addressed to the FTC is subject to delay due to heightened security screening, please consider submitting your comments in electronic form. Comments filed in electronic form should be submitted by using the following weblink: (<http://public.commentworks.com/ftc/twitter>) and following the instructions on the web-based form. To ensure that the Commission considers an electronic comment, you must file it on the web-based form at the weblink: (<http://public.commentworks.com/ftc/twitter>). If this Notice appears at (<http://www.regulations.gov/search/index.jsp>), you may also file an electronic comment through that website. The Commission will consider all comments that regulations.gov forwards to it. You may also visit the FTC website at (<http://www.ftc.gov/>) to read the Notice and the news release describing it.

A comment filed in paper form should include the "Twitter, Inc., File No. 092 3093" reference both in the text

¹ The comment must be accompanied by an explicit request for confidential treatment, including the factual and legal basis for the request, and must identify the specific portions of the comment to be withheld from the public record. The request will be granted or denied by the Commission's General Counsel, consistent with applicable law and the public interest. See FTC Rule 4.9(c), 16 CFR 4.9(c).

and on the envelope, and should be mailed or delivered to the following address: Federal Trade Commission, Office of the Secretary, Room H-135 (Annex D), 600 Pennsylvania Avenue, NW, Washington, DC 20580. The FTC is requesting that any comment filed in paper form be sent by courier or overnight service, if possible, because U.S. postal mail in the Washington area and at the Commission is subject to delay due to heightened security precautions.

The Federal Trade Commission Act ("FTC Act") and other laws the Commission administers permit the collection of public comments to consider and use in this proceeding as appropriate. The Commission will consider all timely and responsive public comments that it receives, whether filed in paper or electronic form. Comments received will be available to the public on the FTC website, to the extent practicable, at (<http://www.ftc.gov/os/publiccomments.shtml>). As a matter of discretion, the Commission makes every effort to remove home contact information for individuals from the public comments it receives before placing those comments on the FTC website. More information, including routine uses permitted by the Privacy Act, may be found in the FTC's privacy policy, at (<http://www.ftc.gov/ftc/privacy.shtml>).

FOR FURTHER INFORMATION CONTACT: Laura Berger (202-326-2471), Bureau of Consumer Protection, 600 Pennsylvania Avenue, NW, Washington, D.C. 20580.

SUPPLEMENTARY INFORMATION: Pursuant to section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, 15 U.S.C. 46(f), and § 2.34 the Commission Rules of Practice, 16 CFR 2.34, notice is hereby given that the above-captioned consent agreement containing a consent order to cease and desist, having been filed with and accepted, subject to final approval, by the Commission, has been placed on the public record for a period of thirty (30) days. The following Analysis to Aid Public Comment describes the terms of the consent agreement, and the allegations in the complaint. An electronic copy of the full text of the consent agreement package can be obtained from the FTC Home Page (for June 24, 2010), on the World Wide Web, at (<http://www.ftc.gov/os/actions.shtml>). A paper copy can be obtained from the FTC Public Reference Room, Room 130-H, 600 Pennsylvania Avenue, NW, Washington, D.C. 20580, either in person or by calling (202) 326-2222.

Public comments are invited, and may be filed with the Commission in either paper or electronic form. All comments should be filed as prescribed in the **ADDRESSES** section above, and must be received on or before the date specified in the **DATES** section.

Analysis of Agreement Containing Consent Order to Aid Public Comment

The Federal Trade Commission has accepted, subject to final approval, a consent agreement from Twitter, Inc. (“Twitter”).

The proposed consent order has been placed on the public record for thirty (30) days for receipt of comments by interested persons. Comments received during this period will become part of the public record. After thirty (30) days, the Commission will again review the agreement and the comments received, and will decide whether it should withdraw from the agreement and take appropriate action or make final the agreement’s proposed order.

Since approximately July 2006, Twitter has operated (www.twitter.com), a social networking website that enables consumers who use Twitter (“users”) to send “tweets” – brief updates of 140 characters or less – to their “followers” (*i.e.*, users who sign up to receive such updates) via email and phone text. Consumers who use Twitter can follow other individuals, as well as commercial, media, governmental, or nonprofit entities. Twitter offers privacy settings through which a user may choose to designate tweets as nonpublic. In addition, Twitter collects certain information about its users that it does not make public (“nonpublic user information”). Such information includes: an email address, Internet Protocol (“IP”) addresses, mobile telephone number (for users who receive updates by phone), and the username for any Twitter account that a user has chosen to “block” from exchanging tweets with the user. This nonpublic user information cannot be viewed by other users or any other third parties, but – with the exception of IP addresses – can be viewed after login by the account owner.

The Commission’s complaint alleges that Twitter violated Section 5(a) of the FTC Act by falsely representing to consumers that it uses at least reasonable safeguards to protect user information from unauthorized access. The complaint further alleges that, through its statements regarding the privacy settings it offers to enable users to keep their tweets private, Twitter falsely represented that it maintains at least reasonable safeguards to honor the privacy choices exercised by users.

Despite these representations, Twitter engaged in a number of practices that, taken together, failed to provide reasonable and appropriate security to prevent unauthorized access to nonpublic user information and honor the privacy choices exercised by such users in designating certain tweets as nonpublic. Specifically, Twitter failed to prevent unauthorized administrative control of the Twitter system, which includes the ability to: reset a user’s account password, view a user’s nonpublic tweets and other nonpublic user information, and send tweets on behalf of a user. Among other things, Twitter failed to:

- a. establish or enforce policies sufficient to make administrative passwords hard to guess, including policies that: (1) prohibit the use of common dictionary words as administrative passwords; or (2) require that such passwords be unique – *i.e.*, different from any password that the employee uses to access third-party programs, websites, and networks;
- b. establish or enforce policies sufficient to prohibit storage of administrative passwords in plain text in personal email accounts;
- c. suspend or disable administrative passwords after a reasonable number of unsuccessful login attempts;
- d. provide an administrative login webpage that is made known only to authorized persons and is separate from the login webpage provided to other users;
- e. enforce periodic changes of administrative passwords, such as by setting these passwords to expire every 90 days;
- f. restrict each person’s access to administrative controls according to the needs of that person’s job; and
- g. impose other reasonable restrictions on administrative access, such as by restricting access to specified IP addresses.

The complaint alleges that between January and May 2009, intruders exploited these failures on two occasions in order to obtain unauthorized administrative control of the Twitter system. Through this administrative control, the intruders were able to: (1) gain unauthorized access to nonpublic tweets and nonpublic user information, and (2) reset users’ passwords and send unauthorized tweets from users’ accounts.

The proposed order applies to “nonpublic consumer information” from

or about an individual consumer. “Nonpublic consumer information” is defined broadly to mean nonpublic, individually-identifiable information from or about an individual consumer, including, but not limited to, an individual consumer’s: (a) email address; (b) Internet Protocol (“IP”) address or other persistent identifier; (c) mobile telephone number; and (d) nonpublic communications made using Twitter’s microblogging platform. The proposed order contains provisions designed to prevent Twitter from engaging in the future in practices similar to those alleged in the complaint.

Part I of the proposed order prohibits Twitter from misrepresenting the security, privacy, confidentiality, or integrity of any “nonpublic consumer information.”

Part II of the proposed order requires Twitter to establish and maintain a comprehensive information security program in writing that is reasonably designed to protect the security, privacy, confidentiality, and integrity of nonpublic consumer information. The security program must contain administrative, technical, and physical safeguards appropriate to Twitter’s size and complexity, the nature and scope of its activities, and the sensitivity of the nonpublic consumer information. Specifically, the order requires Twitter to:

- designate an employee or employees to coordinate and be accountable for the information security program;
- identify reasonably-foreseeable, material risks, both internal and external, that could result in the unauthorized disclosure, misuse, loss, alteration, destruction, or other compromise of nonpublic consumer information or in unauthorized administrative control of the Twitter system and assess the sufficiency of any safeguards in place to control these risks;
- design and implement reasonable safeguards to control the risks identified through risk assessment and regularly test or monitor the effectiveness of the safeguards’ key controls, systems, and procedures;
- develop and use reasonable steps to select and retain service providers capable of appropriately safeguarding nonpublic consumer information they receive from respondent, and require service providers by contract to implement and maintain appropriate safeguards; and
- evaluate and adjust its information security program in light of the results

of the testing and monitoring, any material changes to its operations or business arrangements, or any other circumstances that it knows or has reason to know may have a material impact on the effectiveness of its information security program.

Part III of the proposed order requires that Twitter obtain within 180 days, and on a biennial basis thereafter for ten (10) years, an assessment and report from a qualified, objective, independent third-party professional, certifying, among other things, that: it has in place a security program that provides protections that meet or exceed the protections required by Part II of the proposed order; and its security program is operating with sufficient effectiveness to provide reasonable assurance that the security, privacy, confidentiality, and integrity of nonpublic consumer information is protected.

Parts IV through VIII of the proposed order are reporting and compliance provisions. The proposed order requires Twitter to retain for a period of five (5) years from the date received, documents that contradict, qualify, or call into question its compliance with this order. Part IV further requires that Twitter retain all materials relied upon to prepare the third-party assessments for a period of three (3) years after the date that each assessment is prepared. In addition, Part IV requires that Twitter retain all "widely-disseminated statements" that describe the extent to which it maintains and protects the security, privacy, confidentiality, or integrity of any nonpublic consumer information, along with all materials relied upon in making or disseminating such statements, for a period of three (3) years after the date of preparation or dissemination, whichever is later. Part IV also requires Twitter to maintain for six (6) months from the date received all consumer complaints directed at Twitter or forwarded to Twitter from a third party that relate to the activities alleged in the proposed complaint. Finally, Part IV requires that Twitter maintain for two (2) years from the date received copies of all subpoenas and communications with law enforcement, if such communications relate to Twitter's compliance with the order.

Part V requires dissemination of the order now and in the future to principals, officers, directors, and

managers, and to all current and future employees, agents, and representatives having responsibilities relating to the subject matter of the order. Part VI ensures notification to the FTC of changes in corporate status. Part VII mandates that Twitter submit an initial compliance report to the FTC and make available to the FTC subsequent reports. Part VIII is a provision "sunsetting" the order after twenty (20) years, with certain exceptions.

The purpose of the analysis is to aid public comment on the proposed order. It is not intended to constitute an official interpretation of the proposed order or to modify its terms in any way.

By direction of the Commission.

Donald S. Clark,
Secretary.

BILLING CODE 6750-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

[Document Identifier OS-0990-New; 30-day notice]

Agency Information Collection Request; 30-Day Public Comment Request

AGENCY: Office of the Secretary, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, is publishing the following summary of a proposed collection for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, e-mail your request,

including your address, phone number, OMB number, and OS document identifier, to

Sherette.funncoleman@hhs.gov, or call the Reports Clearance Office on (202) 690-5683. Send written comments and recommendations for the proposed information collections within 30 days of this notice directly to the OS OMB Desk Officer; faxed to OMB at 202-395-5806.

Proposed Project: Activities to Assess the Feasibility of Creating and Maintaining a National Registry of Child Abuse and Neglect Perpetrators—OMB No. 0990-NEW—Office of the Assistant Secretary for Planning and Evaluation.

Abstract: This study will assess the feasibility of implementing a national registry of child maltreatment perpetrators. The study has two components: a Prevalence Study, and a Key Informant Survey. The Prevalence Study will provide national estimates of the number of persons who have been found to be substantiated perpetrators of child maltreatment in more than one State. The data for this component of the study will come primarily from records from the National Child Abuse and Neglect Data System. These data will be supplemented with encoded names and dates of birth of all substantiated child maltreatment perpetrators over a five year period in order to facilitate inter-state record matching, and will be collected from the States.

The Key Informant Survey will collect information in several areas including: the structure and content of State repositories of data on child maltreatment perpetrators; current legal mandates and policies concerning the sharing of information on substantiated perpetrators; existing practices for sharing information on child maltreatment perpetrators with other states; and perceived benefits and costs to participation in a national registry that may affect States' future participation.

This is a one-time data collection effort. The affected public consists of the 50 States, the District of Columbia, and Puerto Rico. Respondents will include staff designated by state child welfare directors including IT staff, department attorneys, and state child welfare administrators. The length of the request is for two years.
