SUPPLEMENTARY INFORMATION:

Title: Export Sales (Reporting Program) of U.S. Agricultural Commodities.

OMB Number: 0551-0007.

Expiration Date of Approval: November 30, 2010.

Type of Request: Extension of a currently approved information collection.

Abstract: Section 602 of the Agricultural Trade Act of 1978, as amended, (7 U.S.C. 5712) requires the reporting of information pertaining to contracts for export sale of certain specified agricultural commodities and other commodities that may be designated by the Secretary. In accordance with Sec. 602, individual weekly reports submitted shall remain

confidential and shall be compiled and published in compilation form each week following the week of reporting. Any person who knowingly fails to report shall be fined not more than \$25,000 or imprisoned for not more than 1 year, or both. Regulations at 7 CFR part 20 implement the reporting requirements, and prescribe a system for reporting information pertaining to contracts for export sales.

USDA's Export Sales Reporting System was created after the large unexpected purchase of U.S. wheat and corn by the Soviet Union in 1972. To make sure that all parties involved in the production and export of U.S. grain have access to up-to-date export information, the U.S. Congress mandated an export sales reporting requirement in 1973. Prior to the establishment of the Export Sales Reporting System, it was difficult for the public to obtain information on export sales activity until the actual shipments had taken place. This frequently resulted in considerable delay in the availability of information.

Under the Export Sales Reporting System, U.S. exporters are required to report all large sales of certain designated commodities by 3 p.m. (Eastern Time) on the next business day after the sale is made. The designated commodities for these daily reports are wheat (by class), barley, corn, grain sorghum, oats, soybeans, soybean cake and meal, and soybean oil. Large sales for all reportable commodities except soybean oil are defined as 100,000 metric tons or more of one commodity in 1 day to a single destination or 200,000 tons or more of one commodity during the weekly reporting period. Large sales for soybean oil are 20,000 tons and 40,000 tons, respectively.

Weekly reports are also required, regardless of the size of the sales transaction, for all of these commodities, as well as wheat products, rye, flaxseed, linseed oil, sunflowerseed oil, cotton (by staple length), cottonseed, cottonseed cake and meal, cottonseed oil, rice (by class), cattle hides and skins (cattle, calf, and kip), and beef. The reporting week for the export sales reporting system is Friday-Thursday. The Secretary of Agriculture has the authority to add other commodities to this list.

U.S. exporters provide information on the quantity of their sales transactions,

the type and class of commodity, the marketing year of shipment, and the destination. They also report any changes in previously reported information, such as cancellations and changes in destinations.

The estimated total annual burden of 42,947 hours in the OMB inventory for the currently approved information collection remains unchanged.

Estimate of Burden: The average burden, including the time for reviewing instructions, gathering data needed, completing forms, and record keeping is estimated to be 30 minutes.

Respondents: All exporters of wheat and wheat flour, feed grains, oilseeds, cotton, rice, cattle hides and skins, beef, and any products thereof, and other commodities that the Secretary may designate as produced in the United States.

Estimated Number of Respondents: 340.

Estimated Annual Number of Responses per Respondent: 253.

Requests for Comments: Send comments regarding (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments may be sent to Peter W. Burr, Office of Trade Programs/Import Policies and Export Reporting Division/Export Sales Reporting Branch, FAS, USDA, 1400 Independence Avenue, SW., Stop 1025, Washington, DC 20520-1025; or by e-mail at: esr@fas.usda.gov; or to the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.
