| 73,825 ..... | Steel Fabricators of Monroe, LLC ..... | Monroe, LA ..... |             |

The following determinations terminating investigations were issued in cases where these petitions were not filed in accordance with the requirements of 29 CFR 90.11. Every petition filed by workers must be signed

by at least three individuals of the petitioning worker group. Petitioners separated more than one year prior to the date of the petition cannot be covered under a certification of a petition under section 223(b), and

therefore, may not be part of a petitioning worker group. For one or more of these reasons, these petitions were deemed invalid.

|--------------|--------------------------|------------------|-------------|
| 73,708 ..... | Hayden Twist Drill ..... | Warren, MI ..... |             |

The following determinations terminating investigations were issued because the petitioning groups of

workers are covered by active certifications. Consequently, further investigation in these cases would serve

no purpose since the petitioning group of workers cannot be covered by more than one certification at a time.

| 73,835 ..... | Hartford Financial Services Group, Inc., Medical Bill Processing and Production Center Support. | Syracuse, NY .....   |             |

The following determinations terminating investigations were issued because the Department issued a negative determination on petitions related to the relevant investigation

period applicable to the same worker group. The duplicative petitions did not present new information or a change in circumstances that would result in a reversal of the Department's previous

negative determination, and therefore, further investigation would duplicate efforts and serve no purpose.

I hereby certify that the aforementioned determinations were issued during the period of June 14, 2010 through June 18, 2010.
