Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with part 211 of title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Port Authority Trans-Hudson Corporation

[Waiver Petition Docket Number FRA-2010-0104]

The Port Authority Trans-Hudson Corporation (PATH) seeks a waiver of compliance with the Locomotive Safety Standards, 49 CFR 229.129(b)(2), which requires that the sound level of horns of locomotives manufactured before September 18, 2006, be tested before June 24, 2010.

PATH operates a closed interstate rail transit system between New York and New Jersey, with no public highway-rail grade crossings. PATH is in the process of replacing its entire fleet of electric MU rail cars used in passenger service. To date, 122 new cars have been delivered and are in compliance with horn testing requirements for locomotives built after September 18, 2006. PATH continues to operate 223 electric MU railcars manufactured prior to the September 18, 2006, date that require testing. PATH will scrap all but 52 of the cars built prior to September 18, 2006, over the next 18 months. The 52 remaining cars will be used as work cars (maintenance of way).

PATH states that due to the size of the railroad, there is only one location (Harrison Yard) that meets the criteria of the horn testing requirements. This a storage yard, and to utilize this facility, would cause PATH to hold 4 storage tracks out of service which would cripple PATH's operation. PATH requests a waiver from the horn testing requirements for the cars that were manufactured prior to September 18, 2006, that will be scrapped within the next 18 months and a reasonable extension of time period to test the 52 cars they will retain for work service.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number 2010-0104) and may be submitted by any of the following methods:

- *Web site:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with part 211 of title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) has received a request for a waiver of compliance from certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Vreeland Rail, LLC

[Docket Number FRA-2009-0110]

The Vreeland Rail, LLC of Superior, Wisconsin, has petitioned for a permanent waiver of compliance for one EMD locomotive built in 1942, model SW-1 and numbered VREE 600, from the requirements of the Railroad Safety Glazing Standards, title 49 CFR part 223, which requires certified glazing on all windows.

The locomotive is presently located in Ishpeming, Michigan. The railroad indicates that the locomotive operates over 2½ miles of industrial track through the town of Ishpeming, MI, and Tilden Township. The switching operations consist of 2 to 4 cars per trip and approximately 3 or 4 trips per week. The top speed of operations is 5 mph.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Petition for Waiver of Compliance

In accordance with part 211 of title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

American Short Line and Regional Railroad Association

[Waiver Petition Docket Number FRA-2010-0103]

The American Short Line and Regional Railroad Association (ASLRRA), on behalf of its member railroads, seeks a waiver of compliance with the Locomotive Safety Standards, 49 CFR 229.129(b)(2), which requires that the sound level of locomotive horns manufactured before September 18, 2006, be tested before June 24, 2010.

ASLRRA member railroads own approximately 4,000 locomotives, most of which were manufactured before September 18, 2006. ASLRRA estimates that over 50 percent of these locomotives have not yet been tested. ASLRRA states in their request that there are a number of reasons that the testing has not progressed as rapidly as needed to meet the requirement, the amount of time needed to test each locomotive, site requirements, weather conditions, and community noise complaints. ASLRRA requests that the requirement to complete testing of horns on locomotives built prior to September 18, 2006, be extended to December 30, 2012, for its membership.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing.
