Title, Associated Form, and OMB Number: The Contractor Manpower Reporting System; OMB Control Number 0702-0120.

Needs and Uses: This program greatly enhances the ability of the Army to identify and track its contractor workforce. Current systems do not have contractor manpower data that is collected by the contractor Manpower Reporting System—*i.e.*, Direct Labor Hours, Direct Labor Dollars and Organization supported. Existing financial and procurement systems have obligation amounts of an unknown mix of services and supplies, and the Department of the Army is not able to trace the funding to the organization supported. Like all other Federal Government agencies, the Army's reliance on service contractor employees has increased significantly over the past few years.

Affected Public: Business or other for profit.

Annual Burden Hours: 1,018.

Number of Respondents: 12,215.

Responses per Respondent: 1.

Average Burden per Response: 5 minutes.

Frequency: Annually.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

The Contractor Manpower Reporting System represents a program aimed at obtaining information regarding the use of contractor employees by the Army. Reliance on contractors in support of military operations will continue and likely grow. This guidance emphasizes the fact that armed forces are deploying and will deploy without a standard means of tracking the contractor workforce. Section 807 of the National Defense Authorization Act for Fiscal Year 2008 requires the Secretary of

Defense not later than the third quarter of each fiscal year to submit to Congress an annual inventory of the activities performed during the preceding year pursuant to contracts for services for or on behalf of the Department of Defense.

Dated: June 28, 2010.

Mitchell S. Bryman,

Alternate OSD Federal Register Liaison Officer, Department of Defense.
