Taking and Importing Marine Mammals; Taking Marine Mammals Incidental to the Port of Anchorage Marine Terminal Redevelopment Project

AGENCY: National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of issuance of a Letter of Authorization.

SUMMARY: In accordance with the Marine Mammal Protection Act (MMPA), as amended and implementing regulations, notification is hereby given that the National Marine Fisheries Service (NMFS) has issued a Letter of Authorization (LOA) to the Port of Anchorage (POA) and the U.S. Department of Transportation Maritime Administration (MARAD), to take four species of marine mammals incidental to the POA's Marine Terminal Redevelopment Project (MTRP).

DATES: Effective July 15, 2010, through July 14, 2011.

ADDRESSES: The LOA and supporting documentation are available for review by writing to P. Michael Payne, Chief, Permits, Conservation, and Education Division, Office of Protected Resources, National Marine Fisheries Service (NMFS), 1315 East-West Highway, Silver Spring, MD 20910-3225 or by telephoning one of the contacts listed below. Documents cited in this notice may be viewed, by appointment, during regular business hours, at the aforementioned address and at the Alaska Regional Office, 222 West 7th Avenue, Anchorage, AK 99513.

FOR FURTHER INFORMATION CONTACT: Jaclyn Daly or Brian D. Hopper, Office of Protected Resources, NMFS, (301) 713-2289.

SUPPLEMENTARY INFORMATION:

Background

Section 101(a)(5)(A) of the MMPA (16 U.S.C. 1361 *et seq.*) directs the National Marine Fisheries Service (NMFS) to allow, upon request, the incidental, but

not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and regulations are issued. Under the MMPA, the term "take" means to harass, hunt, capture, or kill or to attempt to harass, hunt, capture, or kill marine mammals.

Authorization may be granted for periods up to 5 years if NMFS finds, after notification and opportunity for public comment, that the taking will have a negligible impact on the species or stock(s) of marine mammals and will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses. In addition, NMFS must prescribe regulations that include permissible methods of taking and other means of effecting the least practicable adverse impact on the species and its habitat, paying particular attention to rookeries, mating grounds, and areas of similar significance, and on the availability of the species for subsistence uses. The regulations must include requirements for monitoring and reporting of such taking.

Regulations governing the taking of Cook Inlet beluga whales (*Delphinapterus leucas*), harbor porpoises (*Phocoena phocoena*), killer whales (*Orcinus orca*), and harbor seals (*Phoca vitulina*), by Level B harassment, incidental to in-water pile driving were issued on July 15, 2009 (74 FR 35136), and remain in effect until July 14, 2014. These regulations may be found in 50 CFR 217 subpart U. For detailed information on this action, please refer to that document. These regulations include mitigation, monitoring, and reporting requirements for the incidental take of marine mammals during the specified activity.

Summary of Request

On April 23, 2010, NMFS received a request for an LOA renewal pursuant to the aforementioned regulations that would authorize, for a period not to exceed 1 year, take of marine mammals, by Level B harassment only, incidental to the POA MTRP. In compliance with the 2009 LOA, POA and MARAD submitted an annual report on POA construction activities, covering the period of July 15 through December 31, 2009. The report also covers the period of January 1 through July 15, 2009, pursuant to the U.S. Army Corps of Engineers' reporting requirement under their permit issued under Section 10 of the Rivers and Harbors Act and Section 404 of the Clean Water Act. The report can be found on the NMFS website at
