

Total Annual Burden: 23,954 hours.
Annual Cost Burden: \$340,800.
Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: In general, there is no need for confidentiality.

Needs and Uses: The purpose of this information collection is to obtain information from applicants and current licensees to further the Commission's goal of protecting U.S. consumers and U.S. carriers from anti-competitive conduct, ensure that consumers enjoy more choice in telecommunications services and decrease prices for international calls without imposing unnecessary paperwork burdens on carriers. If the information collection was not conducted or was conducted less frequently, the Commission would not be able to ensure compliance with its international rules and policies. Furthermore, the Commission would not have sufficient information to take measures to prevent anticompetitive conduct in the provision of international communications services. The Commission would not have adequate information to respond to failures in the U.S.-international market. The Commission would not be able to promote effective competition in the global market for communications services. The lack of effective competition would adversely affect the U.S. revenues in the telecommunications industry. The agency would not be able to comply with the international regulations stated in the World Trade Organization (WTO) Basic Telecom Agreement.

Federal Communications Commission.
