Reedsport OPT Wave Park, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

June 24, 2010.

Reedsport OPT Wave Park, LLC filed on February 2, 2010 and amended on May 27, 2010, an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Reedsport OPT Wave Park Phase III Project located in the Pacific Ocean about 2.5 miles west of Reedsport, Oregon. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of: (1) 100 PowerBuoys having a total installed capacity of 50 megawatts; (2) an approximately 2.5-mile-long, subsea transmission cable; (3) an approximately 3-mile-long transmission line connecting to an existing substation; and (4) appurtenant facilities. The project would have an estimated average annual generation of 138,000 megawatt-hours.
