I. Abstract

Foreign fishing activities can be authorized under the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.). The reports are also necessary to monitor the amounts of fish, if any, such vessels receive from U.S. vessels in joint venture operations, wherein U.S. vessels catch and transfer at sea to permitted foreign vessels certain species for which U.S. demand is low relative to the abundance of the species. This notice is for the extension of a currently approved information collection.

II. Method of Collection

Activity reports are made by radio when fishing begins or ceases, to report on transfers of fish, and to file weekly reports on the catch or receipt of fish. Foreign vessels are also subject to recordkeeping requirements. These include a communications log, a transfer log, a daily fishing log, a consolidated fishing or joint venture log, and a daily joint venture log. These records must be maintained for three years.

SUPPLEMENTARY INFORMATION

I. Abstract

The Census Bureau plans to conduct a 
Precanvass Operation in preparation for 
the 2012 Commodity Flow Survey to 
improve the efficiency and accuracy of 
the sample frame. The Commodity Flow 
Survey itself will be the subject of a 
later notice planned for publication in 
eyearly 2011.

The Commodity Flow Survey, a 
component of the Economic Census, is 
the only comprehensive source of 
multimodal, system-wide data on the 
volume and pattern of goods movement 
in the United States. The Commodity 
Flow Survey is conducted in 
partnership with the Bureau of 
Transportation Statistics, Research and 
Innovative Technology Administration, 
U.S. Department of Transportation.

In conducting the Precanvass, the 
Census Bureau will mail a one-page 
questionnaire to manufacturing, mining, 
and wholesale establishments, 
enterprise support establishments, 
electronic shopping, mail-order houses, 
and publisher establishments, selected 
from its Business Register. The 
Precanvass will determine if these 
establishments are engaged in shipping 
activities, and if so obtain an estimate of 
the annual value of those shipments, 
along with updating address and contact 
information for the 2012 Commodity 
Flow Survey. Those establishments that 
do not engage in shipping activity will 
be eliminated from the sample frame. 
Identification and elimination of the 
non-shippers will significantly improve 
the efficiency of the sample for the 2012 
Commodity Flow Survey. Also, those 
establishments excluded from the 
sample frame will be saved the added 
burden of receiving a 2012 Commodity 
Flow Survey.

II. Method of Collection

The Census Bureau will mail the 
Precanvass questionnaire to (a) 
enterprise support establishments in the 
Census Bureau’s Business Register, and 
(b) the largest establishments in the 
industries listed in Section I that are 
likely to be included in the 2012 
Commodity Flow Survey. The estimated 
size of the Precanvass mailing is 
100,000 establishments.

The Census Bureau will use a 
mailout, mail-back or electronic 
reporting methodology, with telephone 
follow-up for selected nonresponse 
cases. General information on shipping 
activity and value of shipments will be 
collected via check box style questions.

Contact information also will be 
collected and used to improve the 
mailing and follow-up activities for the 
2012 Commodity Flow Survey.
