

Project Descriptions

Six separate projects are proposed as follows:

1. Fire Suppression—Segments A through D.
2. Water Storage Tank.
3. WWTF (Wastewater Treatment Facility) Remediation.
4. Segment D Addition.
5. Water Supply.
6. Storm Water Management.

Fire Suppression

The proposed action is to install automatic fire suppression systems consisting of internal sprinkler systems designed to fit each building's unique layout, function and purpose. The systems will be supplied with water from the City of La Crosse water system. The purpose of this project is to enhance fire protection capabilities for the existing buildings and the proposed Segment D addition.

Water Storage Tank

The proposed action is to construct a new welded steel water storage tank west of the existing water storage tank and to refurbish the existing water storage tank. The new tank will be connected to the existing on-site water distribution system. The purpose of this project is to ensure the water supply required for the research at UMESC is maintained.

Wastewater Treatment Facility (WWTF) Remediation

The proposed WWTF remediation project includes the following items:

- Replace synthetic liner in secondary pond.
- Install UV (ultraviolet) equipment for disinfection of final effluent.
- Repair fence and gates.
- Repair eroded bank outside of fence.
- Restore roadways within fence.

The purpose of this project is to ensure the pond and features associated with the pond are repaired and modified to ensure their future integrity.

Segment D Addition

The proposed action involves the construction of a new, approximately 22,000 sq. ft., two-level building addition onto the south side of existing Segment C. The upper level will include a large group conference center for public meetings and presentations associated with the work conducted by UMESC. The lower level will house individual office spaces and interior lab space for the GIS Department.

Surface water quality will improve due to disinfection of the wastewater

treatment facility effluent. Storm water runoff generated by the proposed actions will be infiltrated so it will not reach surface waters. On-site groundwater use will be slightly reduced due to connection to the City of La Crosse water system for potable water.

The purpose of this project is to provide additional office and meeting room space that is required.

Water Supply

The proposed action is to connect to the City of La Crosse water system at the end of Fanta Reed Road approximately 300 feet south of Segment C to provide water for potable use.

The purpose of this project is to provide UMESC with potable drinking water for the personnel at UMESC.

Storm Water Management

The proposed action is to construct storm water best management practices to divert existing storm water runoff which will minimize the potential of surface runoff overloading the capacity of the site's WWTF.

The purpose of this project is to minimize the potential of the WWTF capacity being exceeded due to storm water influence, improving the water quality of the site surface runoff, and reducing the quantity of the runoff from the site.

Dated: April 23, 2010.

National Park Service

National Register of Historic Places; Notification of Pending Nominations and Related Actions

Nominations for the following properties being considered for listing or related actions in the National Register were received by the National Park Service before June 5, 2010. Pursuant to section 60.13 of 36 CFR Part 60, written comments are being accepted concerning the significance of the nominated properties under the National Register criteria for evaluation. Comments are also being accepted on the following properties being considered for removal pursuant to 36 CFR 60.15. Comments may be forwarded by United States Postal Service, to the National Register of

Historic Places, National Park Service, 1849 C St., NW., 2280, Washington, DC 20240; by all other carriers, National Register of Historic Places, National Park Service, 1201 Eye St., NW., 8th floor, Washington, DC 20005; or by fax, 202-371-6447. Written or faxed comments should be submitted by July 22, 2010.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

BILLING CODE P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Solid Waste Disposal Act

Notice is hereby given that, on June 24, 2010, a proposed Consent Decree in *United States v. Jim's Water Services, Inc.*, Civil Action No. 2:10-CV-00128-ABJ, was lodged with the United States District Court for the District of Wyoming.

The proposed Consent Decree will settle the United States' claims on behalf of the United States Environmental Protection Agency ("EPA") for violations of Section 7003 of the Solid Waste Disposal Act (as amended by the Resource Conservation and Recovery Act), 42 U.S.C. 6973, in connection with Defendant's failure to comply with an Administrative Order issued by EPA requiring Defendant to take certain actions to abate an imminent and substantial endangerment, particularly to wildlife, at its commercial oilfield waste disposal facility, located in Campbell County, Wyoming. The Consent Decree resolves all claims in the Complaint in return for payment by the Defendant of \$125,000. Because EPA has determined that the Defendant is now in compliance with the terms of the Administrative Order, the Decree does not require any injunctive relief.

Pursuant to 42 U.S.C. 6973(d), the public shall be afforded a reasonable opportunity to comment on the proposed settlement and/or to request that a public meeting be held in the affected area. Accordingly, the Department of Justice will receive comments relating to the proposed Consent Decree for a period of 30 days from the date of this publication. Comments on the Consent Decree, or a request for a public meeting, should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either e-mailed

to pubcomment-ees.enrd@usdoj.gov or mailed to P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, and should refer to *United States v. Jim's Water Services, Inc.*, Civil Action No. 2:10-CV-00128-ABJ, D.J. Ref. No. 90-7-1-07997.

The proposed Consent Decree may be examined at the Office of the United States Attorney for the District of Wyoming, 2120 Capitol Avenue, J.C. O'Mahoney Federal Building, Cheyenne, Wyoming, and at the offices of the United States Environmental Protection Agency, Region 8, 1595 Wynkoop Street, Denver, Colorado 80202. During the public comment period, the proposed Consent Decree may also be examined on the following Department of Justice Web site: <http://www.usdoj.gov/enrd/ConsentDecrees.html>. A copy of the proposed Consent Decree may also be obtained by mail from the Consent Decree Library, P.O. Box 7611, United States Department of Justice, Washington, DC 20044-7611 or by faxing or e-mailing a request to Tonia Fleetwood (tonia.fleetwood@usdoj.gov), fax number (202) 514-0097, phone number (202) 514-1547. If requesting a copy by mail from the Consent Decree Library, please enclose a check in the amount of \$2.25 (\$0.25 per page reproduction cost) payable to the United States Treasury or, if requesting by e-mail or fax, forward the check in that amount to the Consent Decree Library at the address stated above.

Maureen Katz,

Assistant Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410-15-P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Clean Water Act

Notice is hereby given that on June 16, 2010, a Consent Decree in *United States of America, et al. v. JBS Souderton, Inc.*, Civil Action No. 08-5999, was lodged with the United States District Court for the Eastern District of Pennsylvania. The proposed Consent Decree obligates JBS Souderton, Inc. ("JBS"), a large beef processing and rendering facility located outside of Philadelphia, to re-construct the system that collects wastewater and conveys that wastewater to its wastewater treatment plant. The Consent Decree further obligates JBS to modernize its operation and maintenance by
