

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to conform the speculative position limits for certain security futures products to the requirements of the CEA. This change will achieve that result.

2. Statutory Basis

The proposed rule change is consistent with Section 6(b)(5) of the Act⁴ in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to protect investors and the public interest, and to remove impediments to and perfect the mechanism for a free and open market and a national market system.

B. Self-Regulatory Organization's Statement on Burden on Competition

OneChicago does not believe that the proposed rule change will have an impact on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Comments on the OneChicago proposed rule change have not been solicited and none have been received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The proposed rule change has become effective pursuant to Section 19(b)(7) of the Act.⁵ Within 60 days of the date of effectiveness of the proposed rule change, the Commission, after consultation with the CFTC, may summarily abrogate the proposed rule change and require that the proposed rule change be refiled in accordance with the provisions of Section 19(b)(1) of the Act.⁶

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

⁴ 15 U.S.C. 78f(b)(5).

⁵ 15 U.S.C. 78s(b)(7).

⁶ 15 U.S.C. 78s(b)(1).

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-62418; File No. SR-EDGX-2010-05]

Self-Regulatory Organizations; EDGX Exchange, Inc.; Notice of Filing of Proposed Rule Change To Amend EDGX Rule 11.14, Entitled "Trading Halts Due to Extraordinary Volatility."

June 30, 2010.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on June 30, 2010, EDGX Exchange, Inc. (the "Exchange" or "EDGX") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is proposing to amend EDGX Rule 11.14, entitled "Trading Halts Due to Extraordinary Volatility" to add additional securities to the pilot rule. The text of the proposed rule change is available at the Exchange's Web site at <http://www.directedge.com>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend EDGX Rule 11.14 to add securities included in the Russell 1000® Index

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

(“Russell 1000”) and specified Exchange Traded Products (“ETP”) to the pilot rule. For purposes of this filing, ETPs include Exchange Traded Funds (“ETF”),³ Exchange Traded Vehicles (“ETV”),⁴ and Exchange Traded Notes (“ETN”).⁵

EDGX Rule 11.14 was approved by the Commission on June 10, 2010 on a pilot basis to end on December 10, 2010.⁶ As the Exchange noted in its filing to adopt EDGX Rule 11.14, during the pilot period, the Exchange would continue to assess whether additional securities need to be added and whether the parameters of the rule would need to be modified to accommodate trading characteristics of different securities.

Currently, the pilot list of securities is all securities included in the S&P 500® Index (“S&P 500”). As noted in comment letters to the original filing to adopt EDGX Rule 11.14, concerns were raised that including only securities in the S&P 500 in the pilot rule was too narrow. In particular, commenters noted that securities that experienced volatility on May 6, 2010, including ETFs, should be included in the pilot.

In response to these concerns, various exchanges and national securities associations have collectively determined to expand the list of pilot securities. As part of a coordinated filing with the other markets, the Exchange proposes to add the securities included in the Russell 1000 and specified ETPs to the pilot beginning in July 2010, subject to Commission approval. The Exchange believes that adding these securities would address concerns that the scope of the pilot may be too narrow, while at the same time recognizing that during the pilot period, the markets will continue to review whether and when to add additional securities to the pilot and whether the

³ An ETF is an open-ended registered investment company under the Investment Company Act of 1940 that has received certain exemptive relief from the SEC to allow secondary market trading in the ETF shares. ETFs are generally index-based products, in that each ETF holds a portfolio of securities that is intended to provide investment results that, before fees and expenses, generally correspond to the price and yield performance of the underlying benchmark index.

⁴ An ETV tracks the underlying performance of an asset or index, allowing investors exposure to underlying assets such as futures contracts, commodities, and currency without actually trading futures or taking physical delivery of the underlying asset. An ETV is traded intraday like an ETF. An ETV is an open-ended trust or partnership unit that is registered under the Securities Act of 1933.

⁵ An ETN is a senior unsecured debt obligation designed to track the total return of an underlying index, benchmark or strategy, minus investor fees. ETNs are registered under the Securities Act of 1933 and are redeemable to the issuer.

⁶ See Securities Exchange Act Release No. 62252 (June 10, 2010) (SR-EDGX-2010-01).

parameters of the rule should be adjusted for different securities.

In particular, the Exchange proposes to add securities included in the Russell 1000 because the Exchange believes that the securities included in that index have similar trading characteristics to securities included in the S&P 500 (many of which are the same securities) and therefore the existing 10% price movement applicable before invoking a trading pause may be appropriate for the Russell 1000 securities.

In addition, the Exchange, in consultation with other markets, proposes to add to the pilot a selected list of ETPs. The proposed pilot list of ETPs was developed by first identifying all ETPs across multiple asset classes and issuers, including domestic equity, international equity, fixed income, currency, and commodities and futures. Next, leveraged ETPs were excluded and sorted by notional consolidated average daily volume (“CADV”) using year-to-date CADV ending May 5, 2010, multiplied by the closing price on May 5, 2010. Then, those symbols, including inverse ETPs, that trade over \$2,000,000 CADV year to date through May 5, 2010, were selected. To ensure that ETPs that track similar benchmarks but that do not meet this volume criterion do not become subject to pricing volatility when a component security is the subject of a trading pause, the Exchange proposes to include certain non-leveraged ETPs that have traded below this volume criterion, but that track the same benchmark as an ETP that does meet the volume criterion.

The proposed list of ETPs identify those ETPs that have component securities that largely track the securities included in the S&P 500 and Russell 1000. Accordingly, if an S&P 500 or Russell 1000 security experiences a trading pause, any resulting price volatility in a related ETP, regardless of the CADV of the ETP, would also be subject to a trading pause trigger. As with the proposal to add the Russell 1000 securities, the proposed ETPs were selected because they were consistent with the existing 10% price movement before invoking a trading pause for ETPs with these characteristics. The Exchange does not believe that the 10% price movement is an appropriate threshold for leveraged ETPs because by definition, leveraged ETPs are based on multiples of price movements in the underlying index. Accordingly, a 10% percent price movement in a leveraged ETP may not signify extraordinary volatility. Because the Exchange is not proposing to adopt revised price movement thresholds at this time, the

Exchange is therefore not proposing to include leveraged ETPs for now.

As noted above, during the pilot, the Exchange will continue to re-assess, in consultation with other markets, whether specific ETPs should be added or removed from the pilot list. The Exchange will also assess whether the parameters for invoking a trading pause continue to be the appropriate standard and whether the parameters should be modified.

To effect this change, the Exchange proposes to amend supplementary material .05 to Rule 11.14 to provide that the pilot applies to all securities in the S&P 500, securities in the Russell 1000, as well as specified ETPs.

2. Statutory Basis

Approval of the rule change proposed in this submission is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of Section 6(b) of the Act.⁷ In particular, the proposed change is consistent with Section 6(b)(5) of the Act,⁸ because it would promote just and equitable principles of trade, remove impediments to, and perfect the mechanism of, a free and open market and a national market system, and, in general, protect investors and the public interest. The proposed rule change is also designed to support the principles of Section 11A(a)(1)⁹ of the Act in that it seeks to assure fair competition among brokers and dealers and among exchange markets. The Exchange believes that the proposed rule meets these requirements in that it promotes uniformity across markets concerning decisions to pause trading in a security when there are significant price movements.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change imposes any burden on competition.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.¹⁰

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning all aspects of the foregoing, including whether the proposed rule change is consistent with the Act.

The Commission notes that ETF trades constituted a substantial majority of the trades that were cancelled on May 6, and the proposed amendments would bring certain ETFs within the scope of the trading pause pilot for the first time. The Commission solicits comment regarding the inclusion of ETFs within the trading pause pilot. The Commission requests comment in particular on the implications of including in the trading pause pilot ETFs on broad-based indices that also underlie options and futures products. What are the potential benefits and risks of including those ETFs in the pilot under circumstances where other products based on the same index may not be subject to any trading pause, or may be subject to a different type of trading pause? Are existing mechanisms available in the markets for those other products sufficient to address any cross-market linkage concerns? What are the potential effects on price discovery and trading behavior in the different markets?

Similarly, the Commission solicits comments on the potential benefits and risks of excluding such ETFs from the pilot, particularly under circumstances where the securities underlying the ETF are included in the pilot. If there are trading pauses for the component securities of an index but not for an ETF based on that index, what consequences might that have for the ETF or for other products based on that index? If there are trading pauses in an ETF but not in the stocks that underlie that ETF, what

¹⁰ The Commission notes that the Exchange has requested accelerated approval of the filing.

consequences might that have for the underlying stocks or other products? What are the potential effects on price discovery for the ETF, the underlying stocks and other products?

Are there other market-based characteristics or metrics that should be considered for purposes of determining which ETFs should be included in the trading pause pilot, or for re-calibrating particular features of the trading pause?

In addition, the Commission solicits comments regarding the operation of the trading pause pilot to date with respect to stocks in the S&P 500.
