Are there any innovative approaches, techniques, or design aspects proposed that will enhance the project? 2. Organizational (35%). Do the skills, knowledge, and expertise of the organization and the proposed project staff demonstrate a high level of competency to carry out the tasks? Does the applicant organization have the necessary experience and organizational capacity to carry out all five goals of the project? Are the proposed project management and staffing plans realistic and sufficient to complete the project within the 18-month timeframe? 3. Project Management/Administration (25%). Does the applicant identify reasonable objectives, milestones, and measures to track progress? If consultants and/or partnerships are proposed, is there a reasonable justification for their inclusion in the project and a clear structure to ensure effective coordination? Is the proposed budget realistic, does it provide sufficient cost detail/narrative, and does it represent good value relative to the anticipated results?
