

for servicers to complete an application for these job retention funds, including developing their initial plans describing how the applicants would use funds, would be 555 hours of new burden under OMB Control Number 1840–0815.

II. Updated Plan

After the Department notifies the applicant, but before the Department disburses funds to the applicant, the applicant must submit to the Secretary an updated plan that describes how the applicant will use the funds to preserve jobs; this updated plan must be based on the actual amount of funding the

applicant will receive, as indicated in the notification provided by the Department. We estimate that each of the projected 37 applicants would take an additional 7 hours to update their plans for final submission to the Secretary for a total of 259 hours of new burden under OMB Control Number 1840–0815.

III. Reporting

Each recipient of funds under this program must submit a report to the Secretary for each year funds are received. We expect that all 37

estimated applicants would ultimately receive funds under this program.

Each recipient’s report must include an accounting of how all funds were used at each location; a description of all activities funded at each location; and a description and analysis of the effect of the use of those funds on job retention of eligible employees. We estimate that each of the projected 37 recipients of these job retention funds would take, on average, 25 hours to collect the required information and report it to the Secretary, for a total of 925 hours of new burden under OMB Control Number 1840–0815.
