SUPPLEMENTARY INFORMATION:**I. Abstract**

The International Trade Administration, U.S. and Foreign Commercial Service's International Buyer Program (IBP) encourages international buyers to attend selected domestic trade shows in high export potential industries and to facilitate contact between U.S. exhibitors and foreign visitors. The program has been successful, having substantially increased the number of foreign visitors attending these selected shows as compared to the attendance when not supported by program. The criteria used to select these shows are: export potential, international interest, scope of show, stature of show, exhibitor interest, overseas marketing, logistics, delegation incentives, and cooperation of show organizers.

The application is used by IBP applicant show organizers to demonstrate (1) Their experience, (2) ability to meet the special conditions of the IBP, (3) provide information about the domestic trade show such as the number of U.S. exhibitors and the

percentage of net exhibit space occupied by U.S. companies vis-a-vis non-U.S. exhibitors.

The exhibitor data is used to determine which U.S. firms are interested in meeting with international business visitors and the overseas business interest of the exhibitor. The form is completed by U.S. exhibitors participating in an IBP domestic trade show and is used to list the firm and its products in an Export Interest Directory, which is made available for use by Foreign Commercial Officers in recruiting delegations of international buyers to attend the show and is also distributed to IBP delegation members and other foreign buyers visiting the event.
