

which were released to interested parties for comment.

Based on our cost-of-production analysis, we disregarded below-cost sales by VMSA in the home market.

Analysis of Comments Received

In their case brief, the petitioners claim that the Department made a ministerial error by neglecting to reduce the U.S. gross unit price for movement expenses VMSA reported under the computer variable for U.S. duties in calculating the net U.S. price for constructed export-price transactions, thereby resulting in an understatement of VMSA's dumping margin. The petitioners request that the Department correct this ministerial error for the final results of the review.

We reviewed the petitioners' allegation and agree that correction of the error is appropriate. Accordingly, for the final results we have recalculated the net U.S. price for constructed export-price transactions by reducing the U.S. gross unit price for these movement expenses. See Final Analysis Memorandum, dated concurrently with this notice, for detailed information on this change.

Final Results of Review

As a result of our review, we determine that the weighted-average dumping margin for VMSA is 3.70 percent for the period February 1, 2008, through January 31, 2009.

Assessment Rates

The Department shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries. In accordance with 19 CFR 351.212(b)(1), we have calculated importer/customer-specific assessment rates for these final results of review. We divided the total dumping margins for the reviewed sales by the total entered value of those reviewed sales for each reported importer or customer. We will instruct CBP to assess the importer/customer-specific rate uniformly, as appropriate, on all entries of subject merchandise made by the relevant importer or customer during the POR. See 19 CFR 351.212(b).

The Department clarified its "automatic assessment" regulation on May 6, 2003. This clarification will apply to entries of subject merchandise during the POR produced by VMSA for which VMSA did not know its merchandise was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries of VMSA-produced merchandise at the all-others rate if there is no rate for the intermediate

company(ies) involved in the transaction. For a full discussion of this clarification, see *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003).

The Department intends to issue instructions to CBP 15 days after the publication of these final results of review.

Cash-Deposit Requirements

The following deposit requirements will be effective upon publication of this notice of final results of administrative review for all shipments of SSB from Brazil entered, or withdrawn from warehouse, for consumption on or after the date of publication, as provided by section 751(a)(2)(C) of the Act: (1) the cash-deposit rate for VMSA will be 3.70 percent; (2) for previously reviewed or investigated companies not listed above, the cash-deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the less-than-fair-value investigation but the manufacturer is, the cash-deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; (4) if neither the exporter nor the manufacturer has its own rate, the cash-deposit rate will be the all-others rate for this proceeding, 19.43 percent. See *Notice of Final Determination of Sales at Less Than Fair Value: Stainless Steel Bar From Brazil*, 59 FR 66914 (December 28, 1994). These deposit requirements shall remain in effect until further notice.

Notification to Parties

This notice serves as a reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely notification of the destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations

and the terms of an APO is a sanctionable violation.

These final results of administrative review are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: July 1, 2010.

Ronald K. Lorentzen,
Deputy Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Order No. 1689]

Grant of Authority For Subzone Status Materials Science Technology, Inc. (Specialty Elastomers and Fire Retardant Chemicals) Conroe, Texas

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

Whereas, the Foreign-Trade Zones Act provides for " * * * the establishment * * * of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," and authorizes the Foreign-Trade Zones Board to grant to qualified corporations the privilege of establishing foreign-trade zones in or adjacent to U.S. Customs and Border Protection ports of entry;

Whereas, the Board's regulations (15 CFR part 400) provide for the establishment of special-purpose subzones when existing zone facilities cannot serve the specific use involved, and when the activity results in a significant public benefit and is in the public interest;

Whereas, the City of Conroe, Texas, grantee of FTZ 265, has made application to the Board for authority to establish a special-purpose subzone at the specialty elastomer manufacturing and distribution facility of Materials Science Technology, Inc., located in Conroe, Texas, (FTZ Docket 46-2009, filed October 27, 2009);

Whereas, notice inviting public comment has been given in the **Federal Register** (74 FR 57149, 11/4/2009) and the application has been processed pursuant to the FTZ Act and the Board's regulations; and,

Whereas, the Board adopts the findings and recommendations of the examiner's report, and finds that the requirements of the FTZ Act and Board's regulations are satisfied, and

that the proposal is in the public interest;

Now, therefore, the Board hereby grants authority for subzone status for activity related to the manufacturing and distribution of specialty elastomers and fire retardant chemicals at the facility of Materials Science Technology, Inc., located in Conroe, Texas (Subzone 265C), as described in the application and **Federal Register** notice, subject to the FTZ Act and the Board's regulations, including Section 400.28.

Signed at Washington, DC, this 22nd day of June 2010.

Paul Piquado

Acting Deputy Assistant Secretary for Import Administration, Alternate Chairman, Foreign-Trade Zones Board.

ATTEST: _____

Elizabeth Whiteman,

Acting Executive Secretary.

BILLING CODE P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XR52

Marine Mammals; File No. 14534

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit.

SUMMARY: Notice is hereby given that NOAA Office of Science and Technology, Silver Spring, MD (Responsible Party: Ned Cyr, Director) has been issued a permit to conduct research on marine mammals in the North Pacific Ocean.

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)713-0376; and

Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213; phone (562)980-4001; fax (562)980-4018.

FOR FURTHER INFORMATION CONTACT: Tammy Adams or Carrie Hubard, (301)713-2289.

SUPPLEMENTARY INFORMATION: On September 11, 2009, notice was published in the **Federal Register** (74

FR 46745) that a request for a permit to conduct research on a variety of marine mammals had been submitted by the above-named applicant. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

The permit allows research on a variety of marine mammals, and involves studies of sound production, diving, responses to sound, and other behavior. The research is focused in the waters within the U.S. Navy's Southern California Range Complex, and primarily near the vicinity of San Clemente Island. The experimental design involves temporarily attaching individual recording tags to measure vocalization, behavior, and physiological parameters as well as sound exposure. Behavior will be measured before, during, and after carefully controlled exposures of sound in conventional playback experiments. The permit is valid for five years from the date of issuance.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an environmental assessment (EA) was prepared analyzing the effects of the permitted activities on the human environment. Based on the analyses in the EA, NMFS determined that issuance of the permit would not significantly impact the quality of the human environment and that preparation of an environmental impact statement was not required. That determination is documented in a Finding of No Significant Impact (FONSI), signed on June 29, 2010.

As required by the ESA, issuance of this permit was based on a finding that such permit: (1) was applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: July 6, 2010.

Tammy C. Adams,

Acting Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XX38

Marine Mammals; File No. 14791

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit.

SUMMARY: Notice is hereby given that Douglas Nowacek, Ph.D., Duke University Marine Lab, Beaufort, NC, 28516, has been issued a permit to conduct research on North Atlantic right whales (*Eubalaena glacialis*).

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 713-2289; fax (301) 713-0376;

Northeast Region, NMFS, 55 Great Republic Drive, Gloucester, MA 01930; phone (978) 281-9328; fax (978) 281-9394; and

Southeast Region, NMFS, 263 13th Avenue South, Saint Petersburg, Florida 33701; phone (727) 824-5312; fax (727) 824-5309.

FOR FURTHER INFORMATION CONTACT: Kate Swails or Carrie Hubard, (301)713-2289.

SUPPLEMENTARY INFORMATION: On November 24, 2009, notice was published in the **Federal Register** (74 FR 61331) that a request for a permit to conduct research had been submitted by the above-named applicant. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

The primary research objective is to determine: (1) the natural behavioral patterns right whales exhibit to approaching vessels and (2) the ability of right whales to localize and detect vessels and other sounds in their environment. Researchers will conduct passive recording, attach a digital sound recording tag (DTAG) via suction cup, and collect samples of exhaled air and sloughed skin on up to 40 right whales
