

www.cancer.gov/), and the Coral Reef Research Foundation (CRRF, <http://www.coralreefresearchfoundation.org/>). Samples would be collected by Mr. DeMaria, who is a sub-contractor for CRRF.

NMFS finds this application warrants further consideration. Based on a preliminary review, NMFS intends to issue the requested EFP, pending receipt of public comments, as per 50 CFR 600.745(b)(3)(i). Possible conditions the agency may impose on this permit, if it is indeed granted, include but are not limited to, a prohibition on conducting research within marine protected areas, marine sanctuaries, special management zones, or artificial reefs without additional authorization. A report on the project findings would be due at the end of the collection period, to be submitted to NMFS and reviewed by the South Atlantic Fishery Management Council.

A final decision on issuance of the EFP will depend on NMFS' review of public comments received on the application, consultations with the affected state, the South Atlantic Fishery Management Council, and the U.S. Coast Guard, as well as a determination that it is consistent with all applicable laws.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: July 8, 2010.

Carrie Selberg,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

National Oceanic and Atmospheric Administration

RIN: 0648-XX51

Fisheries of the South Atlantic and Gulf of Mexico; Southeast Data, Assessment, and Review (SEDAR); goliath grouper.

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR Workshop for South Atlantic and Gulf of Mexico goliath grouper.

SUMMARY: The SEDAR assessments of the South Atlantic and Gulf of Mexico stocks of goliath grouper will consist of a series of three workshops: a Data Workshop, an Assessment Workshop, and a Review Workshop. See **SUPPLEMENTARY INFORMATION.**

DATES: The Assessment Workshop will take place August 2-5, 2010. See **SUPPLEMENTARY INFORMATION.**

ADDRESSES: The Assessment Workshop will be held at the Hilton Bayfront, 333 First Street South, St. Petersburg, FL 33701; telephone: (727) 894-5000.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; telephone: (843) 571-4366.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR includes three workshops: (1) Data Workshop, (2) Stock Assessment Workshop and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Stock Assessment Workshop is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Consensus Summary documenting Panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

SEDAR 23 Workshop Schedule: August 2-5, 2010; SEDAR 23 Assessment Workshop

August 2, 2010: 1 p.m. - 6 p.m.; August 3 - 4, 2010: 8 a.m. - 6 p.m.; August 5, 2010: 8 a.m. - 3 p.m.

Using datasets provided by the Data Workshop, participants will develop

population models to evaluate stock status, estimate population benchmarks and reauthorized Magnuson-Stevens Act criteria, and project future conditions. Participants will recommend the most appropriate methods and configurations for determining stock status and estimating population parameters. Participants will prepare a workshop report, compare and contrast various assessment approaches, and determine whether the assessments are adequate for submission to the review panel.

Although non-emergency issues not contained in this agenda may come before these groups for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 10 business days prior to each workshop.

Dated: July 7, 2010.

Tracey L. Thompson,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
