Type of Review: Revision.

Title of Collection: Program for International Student Assessments (PISA) 2012 Recruitment and Field Test.
OMB #: 1850-0755.

Agency Form Number(s): N/A.

Frequency of Responses: Annually.

Affected Public: Individuals or households.

Estimated Number of Annual Responses: 2,087.

Estimated Annual Burden Hours: 1,057.

Abstract: The Program for International Student Assessment (PISA) is an international assessment that focuses on 15-year-olds' capabilities in reading, mathematics, and science literacy. It was first implemented by the National Center for Education Statistics (NCES) in 2000 and has been administered every three years since. This submission is for the fifth cycle in the series, PISA 2012, and requests OMB approval for field test and main study recruitment, field trial data collection, and a waiver of the 60-day **Federal Register** notice for the main study clearance in 2012. As in 2003, in PISA 2012, mathematics will be the major subject domain. The field test will also include computer-based assessments in reading, science, and general problem solving, and an assessment of financial literacy in a paper-and-pencil format. The United States may decide to participate in these components in the main study as well, based on the results of the field test. In addition to assessment data, PISA provides background information on school context and student demographics to benchmark performance and inform policy. School recruitment for the field test will begin in September 2010 with data collection beginning in March 2011. Main study recruitment will begin in September 2011 with data collection beginning in September 2012. The PISA 2012 field test sample will include about 35 schools (main study sample about 150) and about 1,600 students (4,500-5,700 for the main study, depending on the components administered). In January 2011 NCES will submit the final field trial instruments to OMB; then, following the field test study, in May 2011, NCES will submit to OMB the final main study recruitment materials, design, and burden; and in spring 2012,

NCES will submit the final main study instruments.

Requests for copies of the information collection submission for OMB review may be accessed from the RegInfo.gov Web site at <http://www.reginfo.gov/public/do/PRAMain> or from the Department's Web site at <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 4303.
