SUPPLEMENTARY INFORMATION:

I. General Information

Does this action apply to me?

EPA is in the process of reviewing air regulations affecting the oil and natural gas industry. This review may potentially affect any segment of the oil and natural gas industry, which includes, but is not limited to: Offshore drilling; onshore drilling; oil and natural gas production; natural gas processing; natural gas transmission; and natural gas distribution. You may be affected in some way by regulatory action following this review if you own, operate, work, or live near oil and natural gas operations in the segments listed above.

Docket. EPA has established a docket for the above mentioned review process under Docket ID Number EPA-HQ-OAR-2010-0505. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the EPA Docket Center, Public Reading Room, EPA West Building, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the Air Docket is (202) 566-1742.

II. Background

Under sections 111(b)(1)(B), 112(d)(6), and 112(f)(2) of the Clean Air Act (CAA), EPA has a mandatory duty to take actions relative to the review/revision of new source performance standards (NSPS) and national emission standards for hazardous air pollutants (NESHAP) within 8 years of the issuance of the standards. On January 14, 2009, WildEarth Guardians and San Juan Citizens Alliance brought suit against EPA in the District Court for the District of Columbia, alleging that EPA failed to meet its obligations under sections 111(b)(1)(B), 112(d)(6), and 112(f)(2) of the CAA with respect to the Oil and Natural Gas Production source category. On February 4, 2010, the Court entered a consent decree that resolves the claims in this lawsuit. The consent decree requires, among other things, that EPA sign by January 31, 2011, proposed standards and/or determinations not to issue standards pursuant to sections 111(b)(1)(B), 112(d)(6), and 112(f)(2) of the CAA, and that EPA finalize its proposals by November 30, 2011. The consent decree authorizes EPA to sign by January 31, 2011, a final determination not to review the NSPS pursuant to section 111(b)(1)(B) of the CAA without issuing a proposal for such determination.

EPA is in the process of taking actions under CAA sections 111 and 112 relative to the review/revision of the following NSPS and NESHAP: The NSPS for Equipment Leaks of VOC from Onshore Natural Gas Processing Plants (40 CFR part 60, subpart KKK); the NSPS for Onshore Natural Gas Processing: SO₂ Emissions (40 CFR part 60, subpart LLL); the NESHAP From Oil and Natural Gas Production Facilities (40 CFR part 63, subpart HH); and the NESHAP From Natural Gas Transmission and Storage Facilities (40 CFR part 63, subpart HHH). As part of this process, EPA is holding public meetings in the Dallas, Texas, and

Denver, Colorado, areas, both of which are in regions significantly affected by oil and natural gas production operations. The purpose of these meetings is to establish a dialog among government, the affected industry, and other interested members of the public, as well as to receive information that may be useful to EPA in its review of the NSPS and NESHAP identified above. Such information could include information regarding the nature of local oil and gas production operations, air emissions from oil and gas production operations, control technologies and/or practices that may minimize or otherwise address air emissions, and information on the public health, welfare, and other environmental impacts of air emissions from oil and gas production operations. At these meetings, EPA plans to provide a brief overview of the Agency's review process for the NSPS and NESHAP identified above, including background information on these regulations. There will also be opportunities for questions and answers. In addition, any interested party from industry or the general public may present oral or written information to EPA at these meetings.

Dated: July 7, 2010.

Mary E. Henigin,

Acting Director, Office of Air Quality Planning and Standards.

Drinking Water Strategy Contaminants as Group(s)—Notice of Web Dialogue

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: On March 22, 2010, Administrator Lisa P. Jackson announced the Drinking Water Strategy, a new vision to expand public health protection for drinking water by going beyond the traditional framework. The Drinking Water Strategy includes the following four principles: Addressing some contaminants as group(s) rather than one at a time so that enhancement of drinking water protection can be achieved cost-effectively; fostering development of new drinking water technologies to address health risks posed by a broad array of contaminants; using the authority of multiple statutes to help protect drinking water; and

partnering with States to share more complete data from monitoring at public water systems. EPA is committed to engaging the public and stakeholders as we move forward to implement the four principles. The purpose of this notice is to announce that EPA will host a Web dialogue. The discussion topics for this Web dialogue are focused on the first of the four principles, addressing some contaminants as group(s) rather than addressing single contaminants. EPA invites the public and stakeholders to participate in this information exchange on addressing contaminants as group(s).

DATES: The Web dialogue is a two-day event. It will open at 9 a.m., Eastern Daylight Time (6 a.m., Pacific Daylight Time) on Wednesday, July 28, 2010, and will close at 6 p.m., Eastern Daylight Time on Thursday, July 29, 2010.

ADDRESSES: This meeting will take place on the Internet at <http://www.webdialogues.net/epa/dwcontaminantgroups>.

FOR FURTHER INFORMATION CONTACT: For technical inquiries, contact Shari Bauman, Standards and Risk Management Division, Office of Ground Water and Drinking Water (MC 4607M), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460 at (202) 564-0293, or bauman.shari@epa.gov.

SUPPLEMENTARY INFORMATION: The meeting is open to the public. During the Web dialogue, EPA plans to solicit input on the potential approaches associated with addressing contaminants as group(s). The proposed discussion topics are:

- Addressing Drinking Water Contaminants as Groups.
- Fitting Groups Within the Safe Drinking Water Act.
- Defining Groups.
- Group Technical Approaches.
- Group Implementation Approaches.

Individuals interested in engaging in the Web dialogue information exchange must register at <http://www.webdialogues.net/epa/dwcontaminantgroups>. Registration will open on July 7, 2010. Any person interested in viewing the discussions without comment is not required to register.

The Web dialogue is an opportunity for all registered participants to exchange information and share ideas that they would like for EPA to consider when developing a framework to address contaminants as group(s).

Dated: July 7, 2010.

Cynthia C. Dougherty,
Director, Office of Ground Water and Drinking Water.
