This collection includes rules to govern the future operation and licensing of the 220-222 MHz band (220 MHz service). In establishing this licensing plan, the FCC's goal is to establish a flexible regulator framework that allows for efficient licensing in the 220 MHz service, eliminates unnecessary regulatory burdens, and enhances the competitive potential of the 220 MHz service in the mobile service marketplace. However, as with any licensing and operational plan for a radio service, a certain number of regulatory and information collection requirements are necessary to verify licensee compliance with Part 90 and 97 rules.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0865.

Title: Wireless Telecommunications Bureau Universal Licensing System (ULS) Recordkeeping and Third Party Disclosure Requirements.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households, business or other for-profit, not-for-profit institutions and state, local or tribal government.

Number of Respondents and Responses: 62,677 respondents, 62,677 responses.

Estimated Time per Response: .166 hours to 4 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. sections 154(i) and 309(j).

Total Annual Burden: 89,117 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: Yes.

Nature and Extent of Confidentiality: There is no need for confidentiality with respect to all Private Land Mobile Radio (PLMRS) service filers in this information collection. Information on the PLMRS licensees is maintained in the Commission's system of records, FCC/WTB-1, "Wireless Services Licensing Records".

Needs and Uses: The Commission will submit this expiring information collection to the Office of Management and Budget (OMB) during this comment period. There is no change to the reporting, recordkeeping and/or third party disclosure requirements. The Commission is reporting a 25,671 hour increase in the total annual burden. This increase adjustment is due to an adjustment in the number of responses by licensees who operate within the various service categories. The estimates were gathered from the Commission's Universal Licensing System (ULS) and the CORES databases.

The purpose of this information collection is to streamline the set of rules which minimize filing requirements via the Universal Licensing System (ULS); to eliminate redundant and unnecessary submission

requirements; and to assure ongoing collection of reliable licensing and ownership data. The recordkeeping and third party disclosure requirements, along with certifications which are made via the FCC Form 601 are ways the Commission reduced the filing burdens on the industry. However, applicants must maintain records to document compliance with the requirements for which they provide certifications. In some instances third party coordination is required.
