## DEPARTMENT OF COMMERCE

### International Trade Administration

#### U.S. Cleantech Trade & Investment Mission

**AGENCY:** International Trade Administration, Department of Commerce.

**ACTION:** Notice.

#### Mission Description

The United States Department of Commerce's International Trade Administration, U.S. and Foreign Commercial Service (USFCS), and Economic Development Administration (EDA) are holding the first ever U.S. Clean Technology Trade & Investment Mission to Lyon, France, November 29-December 2, 2010 and to Brussels, Belgium, December 2-4, 2010. This joint mission will be led by senior Department of Commerce officials Brian McGowan, Deputy Assistant Secretary for Economic Development, and Karen Zens, Deputy Assistant Secretary for International Operations (OIO) of the USFCS. This mission is designed to advance President Obama's economic growth initiatives and Secretary Locke's goal of simplifying access to the Department of Commerce's diverse suite of resources—all for the purpose of employment generation. This initiative will support both bureaus' job creation goals by increasing exports and attracting foreign direct investment (FDI), placing a particular emphasis on the clean technology sector.

This mission is especially significant as it includes, for the first time ever, both U.S. companies and delegates from U.S. communities. Please see the section titled "Participation Requirements" below for more information on community delegates and selection criteria that will be used to evaluate applicants. While traditional trade missions are limited to business-to-business connections, the addition of communities in this model provides much broader access to U.S. companies by leveraging regional business networks. Community delegates will
