NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–250 and 50–251; NRC–2009–0517]

License Nos. DPR–31 and DPR–41; Florida Power & Light Company; Notice of Issuance of Director’s Decision Under 10 CFR 2.206

Notice is hereby given that the Director, Office of Nuclear Reactor Regulation, has issued a Director’s Decision with regard to a petition dated January 11, 2009, as amended on July 10, 2009, and a petition dated January 5, 2010, filed by Mr. Thomas Saporito, hereinafter referred to as the “Petitioner.” The petition was supplemented on March 19, May 7, and July 10, 2009. The petition concerns the operation of the Turkey Point Nuclear Generating Station, Units 3 and 4 and St. Lucie Nuclear Power Plant, Units 1 and 2.

In the January 11, 2009, petition, the Petitioner requested that the U.S. Nuclear Regulatory Commission (NRC) issue a “Notice of Violation and Imposition of Civil Penalty” in the amount of $1,000,000 and a confirmatory order modifying Florida Power & Light Company (FPL) License Nos. DPR–31 and DPR–41. The Petitioner amended the January 11, 2009, petition during a teleconference on July 10, 2009, to request that the NRC require FPL to create a monetary fund rather than issuing a civil penalty to FPL. By letter dated January 5, 2010, the Petitioner filed a separate petition requesting that the NRC issue a confirmatory order requiring FPL to immediately place the Turkey Point and St. Lucie facilities in cold shutdown until such time as the NRC can make a full assessment of the work environments at those facilities and credibly determine whether employees at those facilities are free, and feel free, to raise nuclear safety concerns to FPL management or directly to the NRC without fear of retaliation. The NRC consolidated the two petitions on the basis that the issues are similar and Mr. Saporito was the principal external stakeholder for both petitions.

As the basis for the January 11, 2009, as amended on July 10, 2009, request, the Petitioner believes that there are weaknesses in the employee concerns program at Turkey Point due to fear of retaliation when a safety issue is raised to FPL management. Also, the Petitioner believes that an employee retention bonus agreement used by FPL contains language that violates Title 10 of the Code of Federal Regulations (10 CFR), Section 50.7(f). As the basis for the January 5, 2010, request, the Petitioner stated that he has complained to the NRC for the better part of 20 years about weaknesses in the employee concerns program at Turkey Point and has spread to St. Lucie over the years. Mr. Saporito considers such operation to be potentially unsafe and to be in violation of Federal regulations.

On March 19, May 7, and July 10, 2009, the NRC Office of Nuclear Reactor Regulation’s Petition Review Board and the Petitioner held conference calls to clarify the basis for the petition. The NRC sent a copy of the Proposed Director’s Decision to the petitioner and to the licensee for comment on April 28, 2010. The petitioner responded with comments on May 28, 2010. FPL did not provide any comments. A summary of the comments and the NRC staff’s response to them are included in the Director’s Decision. The Director of the Office of Nuclear Reactor Regulation has determined that the NRC should deny the requests, to issue a “Notice of Violation and Imposition of Civil Penalty” in the amount of $1,000,000 or establishment of a monetary fund, a confirmatory order modifying FPL License Nos.
