SUPPLEMENTARY INFORMATION:

I. Abstract

NASA Langley Research Center has a need to baseline employees' work environment. The intent is to use a valid and reliable survey that can assess employees' (both civil servants and on-site contractors) perceptions of their current work environment. The results of the survey will establish a baseline and provide general themes on areas to focus on in order to enhance creativity and innovation at the Center.

II. Method of Collection

Electronic.

III. Data

Title: The KEYS Creativity and Innovation Survey.

OMB Number: 2700-XXXX.

Type of Review: Regular.

Affected Public: Individuals and household.

Estimated Number of Respondents: 1000.

Estimated Time per Response: 30 minutes.

Estimated Total Annual Burden Hours: 500.

Estimated Total Annual Cost: \$0.

IV. Requests for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Brenda J. Maxwell,

NASA PRA Clearance Officer.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

DATES: Requests for copies must be received in writing on or before August 18, 2010. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

ADDRESSES: You may request a copy of any records schedule identified in this notice by contacting the Life Cycle Management Division (NWML) using one of the following means:

Mail: NARA (NWML), 8601 Adelphi Road, College Park, MD 20740-6001.

E-mail: request.schedule@nara.gov.

Fax: 301-837-3698

Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

FOR FURTHER INFORMATION CONTACT: Laurence Brewer, Director, Life Cycle Management Division (NWML), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. *Telephone:* 301-837-1539. *E-mail:* records.mgt@nara.gov.

SUPPLEMENTARY INFORMATION: Each year Federal agencies create billions of records on paper, film, magnetic tape,

and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval, using the Standard Form (SF) 115, Request for Records Disposition Authority. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

The schedules listed in this notice are media neutral unless specified otherwise. An item in a schedule is media neutral when the disposition instructions may be applied to records regardless of the medium in which the records are created and maintained. Items included in schedules submitted to NARA on or after December 17, 2007, are media neutral unless the item is limited to a specific medium. (See 36 CFR 1225.12(e).)

No Federal records are authorized for destruction without the approval of the Archivist of the United States. This approval is granted only after a thorough consideration of their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and whether or not they have historical or other value. Besides identifying the Federal agencies and any subdivisions requesting disposition authority, this public notice lists the organizational unit(s) accumulating the records or indicates agency-wide applicability in the case of schedules that cover records that may be accumulated throughout an agency. This notice provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction). It also includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it too includes information about the records. Further information about the disposition process is available on request.

Schedules Pending

1. Department of Agriculture, Office of Security Services (N1-16-09-3, 1 item, 1 temporary item). Master files of an electronic information system that contains geospatial data and other information relating to facility security that is used to assess risks and vulnerability, develop countermeasures, and carry out other aspects of physical security analysis and decision making.

2. Department of Agriculture, Food Safety and Inspection Service (N1-462-09-13, 3 items, 3 temporary items). BILLING CODE 7537-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-250 and 50-251; NRC-2009-0517]

License Nos. DPR-31 and DPR-41; Florida Power & Light Company; Notice of Issuance of Director's Decision Under 10 CFR 2.206

Notice is hereby given that the Director, Office of Nuclear Reactor Regulation, has issued a Director's Decision with regard to a petition dated January 11, 2009, as amended on July 10, 2009, and a petition dated January 5, 2010, filed by Mr. Thomas Saporito, hereinafter referred to as the "Petitioner." The petition was supplemented on March 19, May 7, and July 10, 2009. The petition concerns the operation of the Turkey Point Nuclear Generating Station, Units 3 and 4 and St. Lucie Nuclear Power Plant, Units 1 and 2.

In the January 11, 2009, petition, the Petitioner requested that the U.S. Nuclear Regulatory Commission (NRC) issue a "Notice of Violation and Imposition of Civil Penalty" in the amount of \$1,000,000 and a confirmatory order modifying Florida Power & Light Company (FPL) License

Nos. DPR-31 and DPR-41. The Petitioner amended the January 11, 2009, petition during a teleconference on July 10, 2009, to request that the NRC require FPL to create a monetary fund rather than issuing a civil penalty to FPL. By letter dated January 5, 2010, the Petitioner filed a separate petition requesting that the NRC issue a confirmatory order requiring FPL to immediately place the Turkey Point and St. Lucie facilities in cold shutdown until such time as the NRC can make a full assessment of the work environments at those facilities and credibly determine whether employees at those facilities are free, and feel free, to raise nuclear safety concerns to FPL management or directly to the NRC without fear of retaliation. The NRC consolidated the two petitions on the basis that the issues are similar and Mr. Saporito was the principal external stakeholder for both petitions.

As the basis for the January 11, 2009, as amended on July 10, 2009, request, the Petitioner believes that there are weaknesses in the employee concerns program at Turkey Point due to fear of retaliation when a safety issue is raised to FPL management. Also, the Petitioner believes that an employee retention bonus agreement used by FPL contains language that violates Title 10 of the *Code of Federal Regulations* (10 CFR), Section 50.7(f). As the basis for the January 5, 2010, request, the Petitioner stated that he has complained to the NRC for the better part of 20 years about the chilled environment, which discourages employees from voicing safety concerns, that currently exists at Turkey Point and has spread to St. Lucie over the years. Mr. Saporito considers such operation to be potentially unsafe and to be in violation of Federal regulations.

On March 19, May 7, and July 10, 2009, the NRC Office of Nuclear Reactor Regulation's Petition Review Board and the Petitioner held conference calls to clarify the basis for the petition.

The NRC sent a copy of the Proposed Director's Decision to the petitioner and to the licensee for comment on April 28, 2010. The petitioner responded with comments on May 28, 2010. FPL did not provide any comments. A summary of the comments and the NRC staff's response to them are included in the Director's Decision.

The Director of the Office of Nuclear Reactor Regulation has determined that the NRC should deny the requests, to issue a "Notice of Violation and Imposition of Civil Penalty" in the amount of \$1,000,000 or establishment of a monetary fund, a confirmatory order modifying FPL License Nos. DPR-
