

I. Background

The ITC was established by section 4(e) of TSCA “to make recommendations to the Administrator respecting the chemical substances and mixtures to which the Administrator should give priority consideration for the promulgation of rules for testing under section 4(a).... At least every six months ..., the Committee shall make such revisions to the *Priority Testing List* as it determines to be necessary and transmit them to the Administrator together with the Committee’s reasons for the revisions” (Public Law 94–469, 90 Stat. 2003 *et seq.*, 15 U.S.C. 2601 *et seq.*). ITC reports are available from the ITC’s website (<http://www.epa.gov/opptintr/itc>) within a few days of submission to the EPA Administrator and from regulations.gov (<http://www.regulations.gov>) after publication in the **Federal Register**. The ITC produces its revisions to the *Priority Testing List* with administrative and technical support from the ITC staff, ITC members, and their U.S. Government organizations, and contract support provided by EPA. ITC members and staff are listed at the end of this report.

II. ITC’s Activities During this Reporting Period (December 2009 to May 2010)

During this reporting period, the ITC reviewed the High Production Volume Challenge Program orphan chemicals proposed rule. The proposed rule was published in the **Federal Register** issue of February 25, 2010 (75 FR 8575) (FRL–8805–8) available on-line at <http://www.gpoaccess.gov/fr>.
