BILLING CODE 4410–15–P

NATIONAL SCIENCE FOUNDATION
Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978 (Pub. L. 95–541)

AGENCY: National Science Foundation.

ACTION: Notice of Permit Applications Received under the Antarctic Conservation Act of 1978, Public Law 95–541.

SUMMARY: The National Science Foundation (NSF) is required to publish notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at title 45 part 670 of the Code of Federal Regulations. This is the required notice of permit applications received.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by August 20, 2010. This application may be inspected by interested parties at the Permit Office, address below.

APPLICATIONS:

1. Applicant: Paul Morin, Department of Geology and Geophysics, University of Minnesota, 310 Pillsbury Drive, SE., Minneapolis, MN 55455.

Activity for Which Permit Is Requested

Enter Antarctic Specially Protected Areas. The applicant plans enter Cape Crozier (ASPA 124), Cape Royds (ASPA 121), Cape Hallet (ASPA 106), Cape Washington, Edisto Inlet, and Battleship Promontory.

Location

Cape Crozier (ASPA 124), Cape Royds (ASPA 121), Cape Hallet (ASPA 106), Cape Washington, Edisto Inlet, and Battleship Promontory.

DATES

October 1, 2010 to July 31, 2011.

Notice of Acceptance for Docketing of the Application and Notice of Opportunity for Hearing Regarding Renewal of Facility Operating License No. NPF–86 for an Additional 20-Year Period; NextEra Energy Seabrook, LLC; Seabrook Station, Unit 1

The U.S. Nuclear Regulatory Commission (NRC or the Commission) is considering an application for the renewal of operating license NPF–86, which authorizes NextEra Energy Seabrook, LLC (NES) to operate the Seabrook Station, Unit 1 (Seabrook Station) at 3648 megawatts thermal. The renewed license would authorize the applicant to operate Seabrook Station for an additional 20 years beyond the period specified in the current license. Seabrook Station is located 13 miles south of Portsmouth, NH. The current operating license expires on March 15, 2030.

NES submitted the application dated May 25, 2010, pursuant to Title 10 of the Code of Federal Regulations, Part 54 (10 CFR Part 54) to renew operating license NPF–86. A notice of receipt and availability of the license renewal application (LRA) was published in the Federal Register on June 16, 2010 (75 FR 34180).

The Commission’s staff has determined that NES has submitted sufficient information in accordance with 10 CFR Sections 2.101, 51.45, 51.53(c), 54.19, 54.21, 54.22, and 54.23 to enable the staff to undertake a review of the application, and the application is therefore acceptable for docketing. The Commission will retain the current Docket No. 50–443 for operating license No. NPF–86. The determination to accept the LRA for docketing does not constitute a determination that the renewed license should be issued and does not preclude the staff from requesting additional information as the review proceeds.
